Subject: RE: When would we be up and running with the new expert? How far off is it?

Hugh

1 Of the 31 plus advised on cases as the landscape now stands in most of the cases it is better that we have the expert instructed as any case begun now will attract some type of Horizon issue.

2. Much of the work requested in our charging advices is dotting I's and crossing Ts. Most of the cases advised for charge will be sound prosecutions with comparatively little extra work when we have an expert's statement.

Hugh

- a) We have identified two experts, as the ideal candidates for this role. Both have agreed to take on this work.
- b) Provide a validated opinion as to the present integrity of the system so as to lay to rest the present concerns relating to the integrity of Horizon Online;
- c) Present position is to agree scope of expert between Fujitsu , Experts and POL.
