John, I uploaded the KELs to WBD's site and let Pete know I'd done it, but it sounds like maybe he hasn't told them, so they are checking – Amy Prime asking "Please could you confirm if this contains all historic and current KEL entries?"

The answer presumably is yes, and am I OK to repeat the info you gave to Pete below as the answer to Amy?

The KEL status will be either Authorised or Deactivated.

Thank you, we have safely received the documents.

There is also a file named "KELComplete" uploaded to the data room. Please could you confirm if this contains all historic and current KEL entries?

Many thanks

Amy,

I have now uploaded to the repository the documents as listed on the attachment.

Those listed on sheet DES APP HLD have been uploaded to the HNG-X folder, noting that those with WD in column are no longer current for the current HNG-X solution and have been withdrawn.

Those listed on sheet TD ARC are in the Horizon folder.

Please let me know if you find any issues with any of the files, although I believe that they are all straightforward Word documents and should present no problems.

Matthew

POL's expert has requested some further documents on the HNG-X and HNG-A high level design architecture and the earlier Horizon system. Please could you upload the following documents to the HighQ data room?

1. All documents in the series TD/ARC/###
2. All documents in the series DES/APP/HLD/###

Thank you for your assistance.

Kind regards
Amy
