Jane

Sorry to disturb your evening but you should see this, not least since they have now more firmly set their sights on PV's position.

Do you want yo have a quick word this eve ?

To see. Does not look to me at quick first reading as though they have shifted much at all in terms of content so I am going to think about this overnight and will discuss with Patrick in the morning some of the ideas we have re raising additional challenges.

I suggest I then convene a call to discuss.
