Subject: PinICLs agreed for Futures
Attachment: Futures021003.zip

I am sending to you two versions of the Futures spreadsheet. Version 1.2 we discussed at Friday's meeting last week, I only brought a printed copy to the meeting and forgot to distribute it. Version 1.3 is an up-to-date copy with those PinICLs discussed and agreed today and also any which have been included since the last version. Included in today's version is a new Bureau PinICL regarding events being generated for RU and RD on a roll over of a stock unit for Bureau TC. We propose to KEL, so that SSC are aware of the issue as the problem will only impact the support of the live estate and target at futures.

In both versions any additions are identified by bold text. Please do review and let me know if you disagree with those included or require further information.
