Just as background – I called the report the "Lepton report" in the email to Howe as it seemed contradictory to keep calling it the "Helen Rose report" whilst stating that we were redacting material for privacy reasons! It is 100% the same report.

Dear Sir,

I refer to your e-mail dated the 15th April 2014.

The enclosures you have sent at first glance do not seem to me to be from the same report as the one sent to Della Robinson which was stated to be the "The Helen Rose Report" not the "Lepton Report" by your own solicitors at the time.

In any event my colleague, Graham Cade will be reviewing matters in more detail and writing to you in due course.

All future communications should be addressed to him directly.

Yours faithfully,

Priti Maru-Singh LL.B (Hons)

Subject: Post Office Mediation Claims

Dear Ms Maru-Singh

I refer to your email of 7 April 2014 to Chris Aujard.

The version of the report sent to Ms Robinson ("the Lepton Report") was redacted to protect the privacy and personal information of the individuals named in that Report. This was done to ensure compliance with the Data Protection Act 1998. We will therefore not be providing an un-redacted copy of the Lepton Report.

As requested, please find attached a copy of Appendix 1 to the Lepton Report along with copies of the spreadsheets embedded in Appendix 1. To protect the privacy of those referred to in these documents we have again redacted any personal data. In particular, in the spreadsheets we have deleted the data from the "user id" and "employee id" columns.

I also attach a copy of Post Office's response to Second Sight's Spot Review 1, which was prepared and disclosed to Second Sight before the publication of its interim report. Again, this document has been redacted to protect the privacy of the individuals involved. This Spot Review addresses the same transactions as raised in the Lepton Report. However, whereas the Lepton Report is focused on the presentation of data from Horizon, the Spot Review 1 Response directly

addresses the issue raised in your email about reversal transactions. I trust that this document helps demonstrate that the reversal transactions in question did not occur without the knowledge of the subpostmaster.

For the sake of good order, I note that Post Office disagrees with the statements in your email about the integrity of data on Horizon and the safety of convictions. Further, Post Office maintains that the disclosure of the un-redacted Lepton Report or Appendix 1 to that report was not required for it to comply with its prosecution disclosure duties.

I do not believe that this matter should delay the submission of your clients' CQRs. However, should you require further time on any particular case you may of course apply in the usual way to the Working Group for an extension – please make this request in writing to [schemeenquiries](#) **GRO**

Yours sincerely, Rodric Williams
