Jarnail

Has there been any feedback from the defence solicitors with regards to their recent request on the following 3 points and also in relation to the transaction log printing.

As a result of the meeting that took place between Charles McLachlan and Gareth Jenkins as directed by the judge, we now need to have:-

- access to the system in the Midlands where it appears there are live, reproducible errors.
- access to the operations at Chesterfield to understand how reconciliation and transaction corrections are dealt with.
- access to the system change requests, known error log and new release documentation to understand what problems have had to be fixed.

Regards
