ICL Pathway **ICL Pathway/POCL Interface
Agreement for the NBSC and HSH
Interface**Ref: CS/IFS/007
Version: 2.0
Date: 13/07/00

1. Background

This document sets out the guidelines that govern the working relationship at the interface between NBSC and HSH. It defines the customer and supplier responsibilities which both POCL and ICL Pathway must undertake in order to support the delivery of incident management to the Post Office Network.

2. Intent of this Agreement

The intent of the agreement is to:

- Establish effective co-operation between NBSC and HSH in the delivery of incident management to the Post Office Network
- Agree responsibilities and detail the interactions that must take place, between NBSC and HSH to ensure the successful delivery of a seamless incident management service to the Post Office retail network.
- Provide a recognised definition of the responsibilities of NBSC and HSH in respect of the delivery of incident management to the Post Office Network.

3. Scope

This document defines:

- How NBSC and HSH will provide a seamless incident management service to Post Office outlets and agreed PONU and ICL Pathway support groups.
- The incident types and responsibilities of each helpdesk with respect to those incidents (detailed in section 11 below).
- The way in which NBSC and HSH will co-operate when working together to manage the resolution of complex incidents, where resolution responsibility is shared.

This document applies to the management of incidents, which occur, during the everyday operation and support of the Horizon Solution by Post Office Outlet Staff, PONU and ICL Pathway support groups.

The document does not define or suggest how PONU and ICL Pathway support units will resolve incidents. Incident resolution is without the scope of this agreement.

**ICL
Pathway** **ICL Pathway/POCL Interface
Agreement for the NBSC and HSH
Interface**Ref: CS/IFS/007
Version: 2.0
Date: 13/07/00

The specific areas described within this agreement are:

- Key Responsibilities & Roles
- Operating principles between NBSC and HSH
- Communications between NBSC and HSH
- Incident escalation
- Business rules/solutions that impact on the delivery incident management by NBSC and HSH

4. Change Control

This interface agreement will be formally registered and controlled through the Horizon programmes joint change control processes for document management.

5. Responsibilities – General

Responsibilities – general are those responsibilities POCL and ICL Pathway have, which require successful completion to support NBSC and HSH in working together.

- a) POCL BSM and ICL Pathway Infrastructure Services are responsible for developing and agreeing changes to the incident management process, which may impact on procedures that effect both parties.
- b) POCL BSM and ICL Pathway (IS) are responsible for developing and agreeing business rules/solutions that impact on or govern how incidents will be managed.
- c) POCL BSM is responsible for advising NBSC of agreed changes to the incident management process, which may impact on procedures.
- d) ICL Pathway (IS) is responsible for advising HSH of agreed changes to the incident management process, which may impact on procedures.
- e) POCL BSM is responsible for advising NBSC of agreed changes to business rules/solutions that impact on the successful delivery of incident management.
- f) ICL Pathway (IS) is responsible for advising HSH of agreed changes to business rules/solutions that impact on the successful delivery of incident management.
- g) POCL BSM and ICL Pathway (IS) are responsible for ensuring that incident management process and practice employed fully supports the joint Problem Management process.
- h) POCL BSM and ICL Pathway (IS) are responsible for ensuring that known problems or events, that may impact on the everyday business of NBSC and HSH, are made known to both helpdesks.

6. Responsibilities - Specific

6.1 NBSC

- a) NBSC are responsible for informing HSH of any known issues or problems that may cause incidents to be logged or cause an exceptional increase in call volumes at HSH via a telephone call direct to manager/team leader.
- b) NBSC will raise an incident in response to an authenticated telephone call from HSH giving the caller a unique incident number.
- c) NBSC will accept incidents in to their management domain in accordance with the responsibility matrix detailed in section 11 below. This rule is subject to two exceptions detailed in para's g) and j) below.
- d) On acceptance of the incident NBSC will manage the incident in accordance with POCL incident management processes.
- e) On acceptance of the incident by NBSC, HSH will close their incident. This closure occurs because management of the incident has moved from the HSH management domain to the NBSC management domain.
- f) When NBSC receive an inappropriate call, NBSC are responsible for ensuring the caller is redirected to the correct helpdesk. When a caller is redirected an incident will be logged and immediately closed.
- g) When NBSC receive a call for an incident redirected from HSH and NBSC deem that call to be inappropriate the incident must be accepted and passed to team leader/manager to address the issue.
- h) If NBSC receive a complaint call about the HSH service or Horizon Solution the complaint call must be logged and dealt with in accordance with the NBSC complaint procedure. Additionally all complaint calls will be referred to the Helpdesk monthly review forum for discussion and where appropriate - action
- i) The NBSC is responsible for co-operating fully with HSH in the resolution of complex appropriate incidents. A complex appropriate incident is defined as "an incident that requires both NBSC and HSH action to resolve the incident".
- j) The NBSC is responsible for accepting and logging undefined incidents - an undefined incident, is an incident that is not listed in section 11 below. Such incidents will be referred to the team leader/manager to address. In addition undefined incidents will be referred to the NBSC/SHS review forum for consideration and permanent inclusion within the responsibility matrix at section 11 below. In this context the term undefined incidents applies to, undefined incidents that relate to the NBSC Service, HSH Service or Horizon solution.

6.2 HSH

- a) HSH are responsible for informing NBSC of any known issues or problems that may cause incidents to be logged or cause an exceptional increase in call volumes at NBSC. via a telephone call direct to manager/team leader.
- b) HSH will raise an incident in response to an authenticated telephone call from NBSC giving the caller a unique incident number.
- c) HSH will accept incidents in to their management domain in accordance with the responsibility matrix detailed in section 11 below. This rule is subject to two exceptions detailed in para's g) and j) below.
- d) On acceptance of the incident HSH will manage the incident in accordance with ICL Pathway incident management processes.
- e) On acceptance of the incident by HSH, NBSC will close their incident. This closure occurs because management of the incident has moved from the NBSC management domain to the HSH management domain.
- f) When HSH receive an inappropriate call, HSH are responsible for ensuring the caller is redirected to the correct helpdesk. When a caller is redirected an incident will be logged and immediately closed.
- g) When HSH receive a call for an incident redirected from NBSC and HSH deem that call to be inappropriate the incident must be accepted and passed to team leader/manager to address the issue.
- h) If HSH receive a complaint call about the NBSC service or Horizon Solution the complaint call must be logged and dealt with in accordance with the HSH complaint procedure. Additionally all complaint calls will be referred to the Helpdesk monthly review forum for discussion and where appropriate - action
- i) The HSH is responsible for co-operating fully with NBSC in the resolution of complex appropriate incidents. A complex appropriate incident is defined as "an incident that requires both NBSC and HSH action to resolve the incident".
- j) The HSH is responsible for accepting and logging undefined incidents - an undefined incident, is an incident that is not listed in section 11 below. Such incidents will be referred to the Team Manager to address. In addition undefined incidents will be referred to the NBSC/SHS review forum for consideration and permanent inclusion within the responsibility matrix at section 11 below. In this context the term undefined incidents applies to, undefined incidents that relate to the NBSC Service, HSH Service or Horizon solution.

7. Incident Management – Key Roles and Contact Numbers

The following key roles operate within the scope of this interface agreement

7.1 The NBSC Helpdesk Manager

Role	Name	Telephone Number	Location
Service Support Manager	Howard Street		Derne Valley
Team Leader	Gary Blackburn		Derne Valley
Team Leader	Sandra Evans		Derne Valley
Team Leader	Julie Edgley		Derne Valley
Team Leader	Ian Speck		Derne Valley

7.2 The Horizon System Helpdesk

Role	Name	Telephone Number	Location
HSH Ops Manager	Beverly Evans		Stevenage
HSH Ops Manager	Karen Luckman		Manchester
HSH Team Manager	Morris Addyman		Manchester
HSH Team Manager	Emma Barlow		Manchester
HSH Team Manager	Caroline Booth		Manchester
HSH Team Manager	William Byrne		Manchester
HSH Team Manager	Bev Olive		Manchester
HSH Team Manager	Noel Butcher		Stevenage
HSH Team Manager	Jane Collins		Stevenage
HSH Team Manager	Debbie Hall		Stevenage
HSH Team Manager	Phillippa Whittington		Stevenage

8 Process Models for HSH and NBSC Interaction

Four process diagrams are shown on the following pages. The first two relate to the HSH. The third and fourth relate to the NBSC. The diagrams show the interfaces between the HSH & NBSC and how those interfaces are expected to work in support of business as usual activity.

The process diagrams include:

- (a) an anti-call-bouncing link which prevents callers being passed backwards and forwards between the two desks,
- (b) a new “hot line” (not yet implemented) between team leaders on the HSH and NBSC to facilitate the agreement of a way forward when attempted call transfers between the two desks fail.

The process diagrams assume that:

- (c) there is a well defined list of appropriate incidents for both desks, which accommodate new unexpected incident types,
- (d) the desk transferring an incident closes their incident when the other desk accepts the transfer.
- (e) The MIS systems associated with the NBSC and HSH will record the correct incident type for incidents that are accepted via the anti-call-bouncing agreement.
- (f) The performance of the ant- call bouncing agreement will be reviewed at the Helpdesk Review forum to ensure the agreement does not impact on the contract

On the following four process diagrams only the sub-processes listed below relate directly to this Interface Agreement. The other sub-processes shown on the diagrams and their interactions are included for information purposes and may be subject to change solely at the discretion of ICL Pathway (sub-processes with prefix H) and Post Office (sub-processes prefix N).

Processes relating directly to this interface agreement include:

H1, H5, H10, H11, H12, H13, H18, H19, H20, H21, H22, H23.

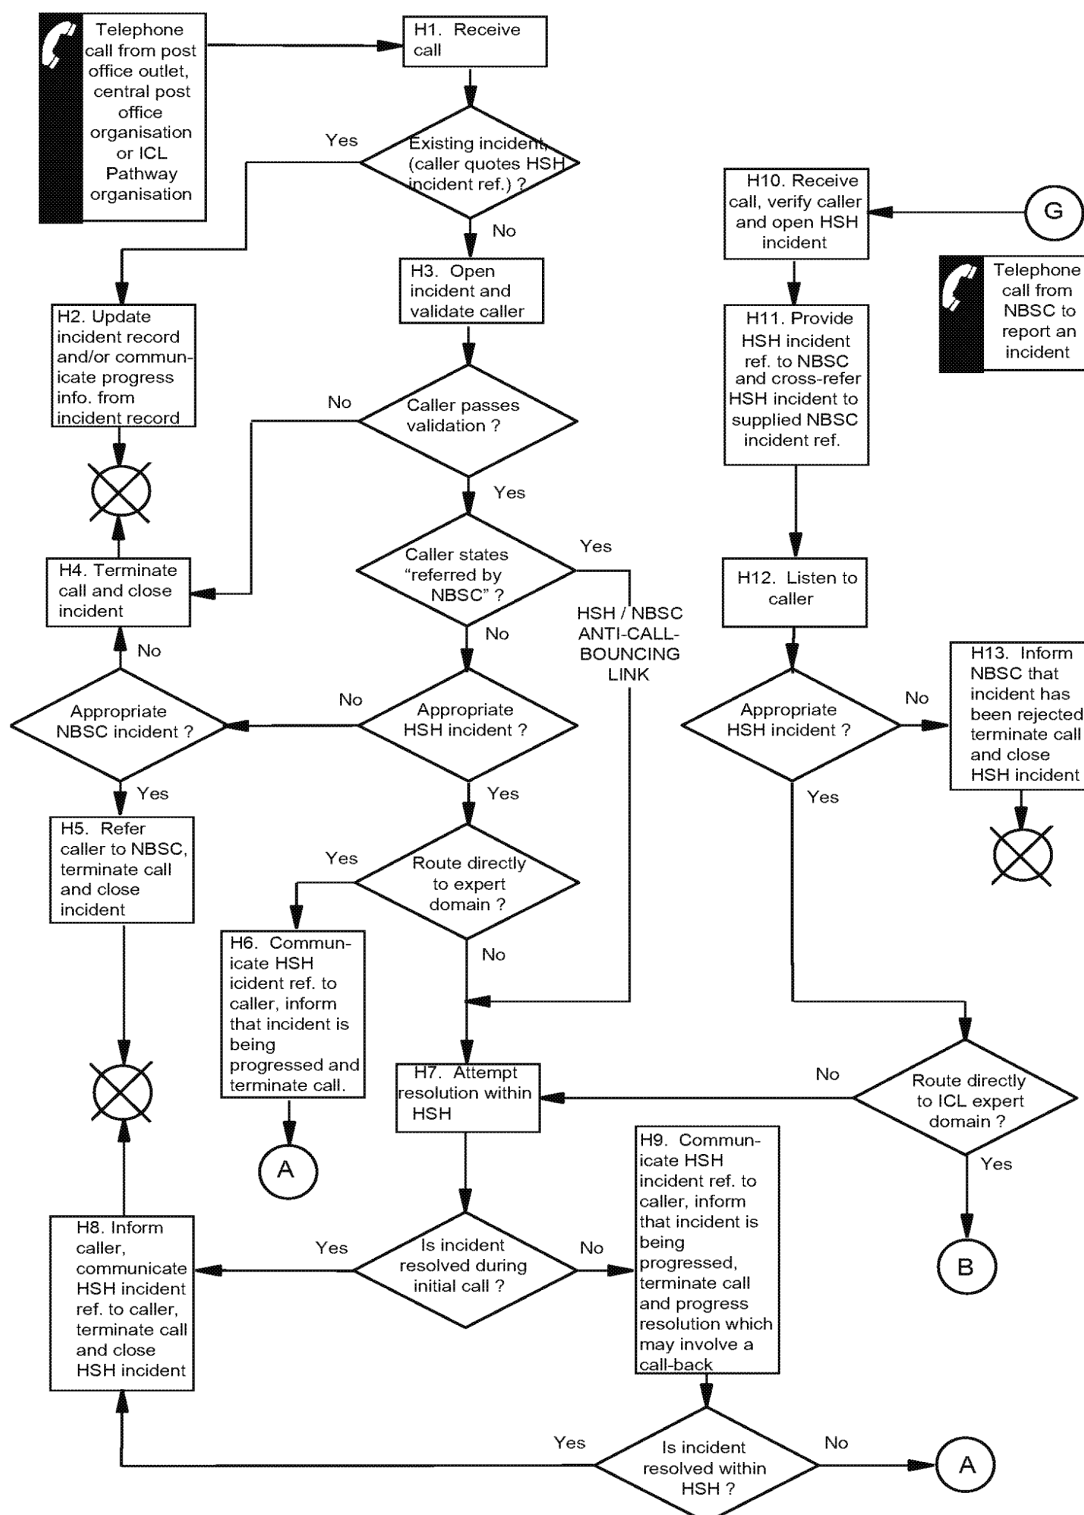

N1, N2, N10, N11, N12, N13, N18, N19, N20, N21, N22, N23.

9. Helpdesk Communications

Daily interaction between helpdesks will as a general principle be conducted in accordance with the process diagrams shown above.

- Incident analysts at NBSC will communicate with Technical Support Advisors from HSH
- Incident analysts at NBSC will escalate issues to their Team Leaders/Team Managers
- Technical Support advisors at HSH will communicate with incident analysts from NBSC
- Technical Support Advisors at HSH will escalate issues to their Senior Technical Support Advisors/Team Managers
- Team Managers from HSH and NBSC will interact to resolve issues
- Team Managers from NBSC will communicate issues to the NBSC Helpdesk Manager
- Team Leaders/Managers from HSH will communicate issues to the HSH Manager
- The NBSC Helpdesk Manager and HSH manager interact to resolve issues
- Any issues that cannot be resolved within 48 hours must be escalated to the Head of NBSB and Strategic Services Manager from ICL Pathway to resolve and invoke the joint ICL Pathway/POCL problem management process where appropriate

Monthly communications will be achieved through the helpdesk review forum.

10. NBSC/HSB Review Forum

The performance of work undertaken across the NBSC/HSB interface will be the subject of monthly review. The output of the review forum will provide input to:

- The Horizon Service Review Forum

The NBSC/HSB Review forum will also accept input from the Horizon Service Review Forum.

10.1 NBSC/HSB Review Forum Objectives

- *To Establish effective co-operation* between NBSC and HSH in the delivery of incident management to Post Office outlets
- *To Work to continuously improve* the incident management service offered by the helpdesks to helpdesk customers
- *To Address matters of joint concern* that impact on the HSH and NBSC; and the services offered by the HSH and NBSC
- *To Invoke corrective action* where appropriate and ensure that incidents and issues of concern to Post Masters are dealt with properly through the procedures established by POCL and ICL Pathway - within the bounds of the Service Management Framework
- To agree HSH and NBSC achievement and service improvement opportunities, which may be escalated to the HSRF
