Progress Narrative

Date:10-Sep-2003 10:50:00 User:Alan Holmes
 CALL PC0095192 opened
 References entered are:-
 Product Infrastructure Audit added
 Target Release entered: Unknown
 ARQ Closure reports are not audited
 Currently Audit Record Query (ARQ) closure reports are not formally audited.
 These reports are required as a record of the actions carried out in fulfilling an ARQ.
 The reports should be moved into the Audit server's audit point in order that they are gathered by normal audit processes.
 CALL PC0095192:Priority D:CallType P - Target 24/09/03 11:50:40
 The Call record has been transferred to the Team: QFP
 Defect cause updated to 7 :Design - High Level Design
 Hours spent since call received: 0 hours

Date:10-Sep-2003 12:55:00 User:Lionel Higman
 Target Release updated to Future Unspecified
 The Call record has been transferred to the Team: Audit-Dev
 Hours spent since call received: 0 hours

Date:10-Sep-2003 13:13:00 User:Bryan Muir
 The Call record has been assigned to the Team Member: Alan A Holmes
 Hours spent since call received: 0.1 hours

Date:16-Sep-2003 15:15:00 User:Alan Holmes
 CALL PC0095192:Priority C:CallType P - Target 17/09/03 11:50:40

Date:16-Sep-2003 15:20:00 User:Alan Holmes
 I have changed the priority of this from D -> C as there is a risk that these closure reports could be lost if 1) the auditor accidentally deletes one, or 2) is there is a disk failure of the F: drive as this drive is not backed up.

Date:16-Sep-2003 15:27:00 User:Bryan Muir
 The Call record has been assigned to the Team Member: Bryan Muir
 Defect cause updated to 14:Development - Code
 Hours spent since call received: 0.1 hours

Date:17-Sep-2003 10:07:00 User:Bryan Muir
 F} Response :
 LIVE FIX IMPACT
 COST: 0.5 man days to fix and handover
 IMPACT ON DEVELOPMENT: Low. This fix can be (incrementally) implemented within the current development schedule.
 IMPACT ON USER: Impact on customer: None. Impact on user: None. However, without this change we will be running with an incomplete audit trail of the actions taken by the Audit system.
 IMPACT ON OPERATIONS: None.
 RISK: Low. A single executable needs to be replaced.

TARGET RELEASE: Recommendation: BI3S50R.

[END OF REFERENCE 36100706]

Responded to call type P as Category 55 -Live Fix Impact Supplied

The response was delivered on the system

The Call record has been transferred to the Team: RelMngmntForum

Hours spent since call received: 0.2 hours

Date:17-Sep-2003 16:46:00 User:John Budworth

F} Response :

RMF 17/9/03 has left the target release for this PinICL as Future Unspecified with no recommendation.

[END OF REFERENCE 36113536]

Responded to call type P as Category 57 -Future Fix Authorised

The response was delivered on the system

The Call record has been transferred to the Team: Audit-Dev

Date:19-Sep-2003 06:38:00 User:Bryan Muir

The Call record has been assigned to the Team Member: Bryan Muir

Date:19-Sep-2003 06:39:00 User:Bryan Muir

Hours spent since call received: 0.1 hours

Date:19-Sep-2003 12:37:00 User:Bryan Muir

This PinICL wrongly (apparently) sent to RMF for a live fix authorisation at BI3S50R. QFP can you please change the Target Release to: BI3S50R so that we can implement a 'development' fix.

Thanks

Date:19-Sep-2003 12:38:00 User:Bryan Muir

The Call record has been transferred to the Team: QFP

Hours spent since call received: 0.2 hours

Date:19-Sep-2003 12:57:00 User:Lionel Higman

Bryan, sending it to the RMF was not wrong but perhaps inappropriate. "R" releases must when possible be kept clear for urgent correction to the live estate, not cluttered up with fixes which could and should wait for the next baseline release. The view of the RMF was that not only was this not sufficiently urgent to go into an "R" release, but that given the workaround (don't delete the relevant files) it did not warrant recommendation for clearance at the next baseline. If you disagree, please resubmit with reasons (to the RMF if you are still recommending S50R, to QFP if you now recommend a baseline (S60) release).

The Call record has been transferred to the Team: Audit-Dev

Hours spent since call received: 0 hours

Date:19-Sep-2003 13:22:00 User:Alan Holmes

The reasons that we believe that this should be included as an S50R fix are three fold:

1) The risk of a file being accidentally deleted. Currently the Auditors manually cut and paste the file from the Audit server to the Audit workstation in order to associate it with the relevant ARQ. We have introduced a temporary change in their working practices such that they copy and paste the file, thus reducing the risk of losing it. However the risk is still there.

2) There is an operational impact in that until the fix is installed, periodically files must be manually renamed (to quite a convoluted new name) and moved in to the Audit servers Audit point for writing to the Audit trail. This is also error prone and could result in an incorrectly named file or the loss of a file (Although in this case there should be a copy on one of the Audit workstations).

3) The output from the ARQ process is often used as evidence in court hearings and the ARQ closure reports are the Audit Trail of how this evidence was generated.
