Optional dependant on visit any breaches should be annotated as to what action has been given

Sales (POM)	Good
Branch Standards	Good
Security	Good
Current issues	<p>I attended the office as they had received a request for payment for the loss sustained in TP 09. Chesterfield have now put a temporary block on this awaiting a transaction correction. I have checked all the office documents, transaction logs and event logs for the week concerned and there is no sign of what has caused this loss. I have contacted Girobank who are looking to see if there are any errors that have come to light. I have advised the manager that Chesterfield will only allow the block to stand for so long unless they can discover where the error was made. If not then the PM will have to make arrangements to settle with Chesterfield.</p> <p>Girobank have stated that there is no discrepancy showing.</p>
