Andy

There is a difference between the Marine Drive and Caledonian Rd cases
.....one is a 'Civil' case, the other is 'Criminal' . The words /
format of statements used in civil cases often differ to those in criminal
cases.

That said the new second para and amendments to the third para to the usual
standard statement will not impact from our perspective so if you want to
include these as standard from now on that's fine with me. Remember these
statements are yours and whilst I will offer comment and support, the
wording must be such that you as the witness are comfortable and can answer
if cross examined at court.

I have made some amendments (e.g. calls were for 2004 not 2006 and have
asked for an explanation for 1 or 2 acronyms), so have a look through and
accept or reject changes as you see fit (it should now fit onto 4 pages ,
if so please amend the header accordingly if this is the case)

(See attached file: Andy updated Caledonian WS - Call Logs.doc)

Feel free to ring to discuss re-send the final draft before
putting pen to paper.

I also note you have also excluded the following sentences

I have working knowledge of the computer system known as Horizon, which is a computerised accounting system used by Post Office Ltd. (I would have thought this could be retained as you must have a working knowledge ?)

The entire second paragraph is excluded (not a problem as this is recorded in the statement that Penny will provide)

It is my opinion that none of these calls relate to faults which would have had an effect on the integrity of the information held on the system as none of the calls recorded raised problems that fall outside the normal operating parameters of the Horizon system. (presumably you're not comfortable stating this ??)

Regards

Graham

Hi Graham,
Sorry for the delay but have been dealing the wording for my statement for Marine drive with the solicitor and thought that it best we use the same wording for future requests.
Attached is my statement for the Caledonian Road PO HSH call logs, I have taken Penny's new format and amended the content with the wording used in the Marine Drive statement (see attached) that we have agreed with the solicitor to use. The basis of the statement is saying that this is not my particular area of expertise and I am supplying the witness statement simply to help clarify the call logs for the benefit of the Court.
If any of the calls are then picked out as being an area of contention then they can be flagged for further investigation and explanation by an appropriate technician. We spoke at great length to the solicitor for Marine Drive and the contents are his words.

If you are ok with this I will get it in the post...
