**Subject:** RE: ARQ Checks

All,

1. ARQ 295: This is OK
2. ARQ 297: This is OK
3. ARQ 298: Probably not an issue. However it is worth getting SSC to check that the CASEPOSSImpact events are benign. These all occur about 19:00 and seem to happen most days so they may cause a problem (but not necessarily one that affects audit). Rest are OK

Regards

Gareth

Penny/Andy,

After filtering no events were returned for ARQ 296.

Gareth

The attached spreadsheet contains the events not removed by application of the filters for the following ARQs:

ARQ295

ARQ297  
ARQ298

I would be grateful if you could cast your eye over them and let Penny/Andy know of any problems.

Regards,

Steven
