Subject: RE: HORIZON FUJITSU REPORT VERY URGENT - Legally Privileged

David

Gareth has responded this morning with a summary document (which I saw, and doesn't have anything contentious that I could see) which produced the reports he has previously provided PO about HNG and HNG-X, a witness statement he gave in a previous case and a summary of his involvement in previous cases (which looked factual, and generally said that although he had responded to challenges before there was no reason to believe any of them). We've therefore given Mr Singh the minimum of new information and we will see what he actually wants. His email was fairly unintelligible...

Will forward that in a second.

Thanks for letting me know. It is worth speaking to Penny and Gareth as both have dealt with a great volume of these things.

It is also worth checking at the outset if this is purely Horizon or also HNGX depending on the periods involved.

It seems to me that our reporting and evidence will follow previous patterns except that increasingly the Defence lawyers are looking to discredit us on similar fact evidence. When checking how this is progressing it is worth asking if there is a date for production of the review report that appears to have been commissioned.

Please keep me in the loop?

Thanks

David

Subject: HORIZON FUJITSU REPORT VERY URGENT

Dear Mr Jenkins

Welcome from your annual leave and your assistance advice in the past prosecution cases and I understand you are assisting my colleagues at present. I need your urgent assist judge has this morning ordered the prosecution to have the following report ready to be served within Seven days.

On advise Post Office Limited have appointed one of their investigators, Helen Rose as disclosure officer dealing with Horizon challenges. She has prepared a document/ spread sheet detailing all such cases, past and present, approximately 20 in total, although none thus far successfully argued in court. Post Office limited have been advised to obtain, an experts report from Fujitsu UK, the Horizon system developers, confirming the system is robust. Post Office Limited maintain the system is robust, but in light of adverse publicity, from legal viewpoint is that defence should be given opportunity to test the system, should they still wish to do so, on consideration of our report.

You will need to consider the Disclosure officers document/spread sheet(see attachments) and need to address in your report the following issues:

- 1) A description of the horizon system (In laymen's terms so that a jury can understand what it is and what it does)
- 2) A declaration that it has yet to be attacked successfully.
- 3) A summary of the basic attacks made on the system concentrating on any expert reports served in past cases. If there are none then state that no expert has yet been found by any defence team civil or criminal to attack the system. (at the moment there seems to be little more than griping by defendants that the system must be at fault without saying how)
- 4) Plainly, like all accounting systems, there is room for human error (Keying in wrong amounts etc) are you able to state that innocent human error is unlikely to produce the types of discrepancies of many thousands of pounds over many months.

If you require any further information or wish to discuss please do not hesitate to contact me.

Regards

Jarnail Singh
prosecution Lawyer
