A rather belated note – I am sorry – of thanks for agreeing to meet earlier this month to talk about the problems subpostmasters and mistresses appear to have been having over the last few years with the Horizon system. I feel rather bad coming to you about this so early in your tenure, but it is a matter that is affecting a large number of people throughout the country.

I shall wait to hear from you about your thoughts on how best to proceed. I am grateful to you for lending a willing ear.
