Attendees: Ron Warmington, Pete Newsome, Steve Allchorn, Alwen Lyons, Lesley Sewell, James Davidson

Actions:

- Post Office will now focus on answering the following questions:

Question	Comment
1 What was in basement of the Bracknell building in 2008	<p>Key points:</p> <ul style="list-style-type: none"> There were two test systems. One for HNG and one for Horizon. At that time: HNG was the new yet-to-be implemented system (not being used by any sub postmasters) Horizon was the "live" test system. Ie the one that reflected the live world.
2 Did the people in the basement have access to the live environment.	No. Physical and logical controls in place to prevent access to the live environment
3 Was there a "covert operations" team	<p>No such team existed or exists now.</p> <ul style="list-style-type: none"> This is hear say, not evidence If this was said, it could have been a joke. As evidence Ron / Ian to confirm if any of the emails scanned use this term. If it did exist it would have been mentioned in emails.
4. Was Mr. Rudkin's suspension from the NFSP connected to this visit.	<p>No – this was a coincidence</p> <ul style="list-style-type: none"> We need to find out the reasons for his suspension
5. Why might have Mr Rudkin heard the words ""I'd better reverse that entry now or he'll have a shortage tonight."	<ul style="list-style-type: none"> This is hear say, not evidence As Mr. Rudkin is not able to name the individual, we aren't able to establish the context or reason for this comment. As the basement hosted the test environments (with no access to live data), the comment may have been referring to activities within one of the test environments.
6 Who did Mr. Rudkin meet in Bracknell that day and why was he taken to the basement	<p>So far we have not identified anyone who met Mr. Rudkin that day</p> <ul style="list-style-type: none"> Mr Rudkin has not yet provided us with a name Sign-in logs for 2008 have been destroyed.
