

Weekly Horizon Call – Terms of Reference

Purpose

The role of the weekly Horizon call is to facilitate a forum of key stakeholders, with the purpose of the group being to identify and discuss issues which may impact on or be impacted by the specific points raised in the Second Sight interim report. It will be the responsibility of the nominated business areas to highlight issues relating to specific cases or policies/processes/new initiatives which the wider group may want awareness of given the concerns regarding the Horizon system, branch training and support, accounting processes or issue management, including investigations. The purpose of the forum is to ensure issues are given the appropriate level of visibility with the right group of people and a consistent approach is adopted by all areas. The group will agree whether the information shared:

1. Has minimal impact, is for information only and it can be managed within normal business processes
2. May have some impact and therefore decisions or guidance on the approach needs to be provided
3. May have a serious impact and therefore decisions or guidance on the required action and points of escalation are to be agreed and provided

Approach

The call will take place every week on a Wednesday at 10am and from the 2nd October 2013 it will be chaired by Gayle Peacock, Branch Training and Support Programme. The conference call details are:

Dial in: **GRO**

Participant PIN: 4994898#

Notes will be taken, actions captured and circulated by Bond Dickinson using the agreed Security document password protection system. The action matrix will identify what the issue was, who raised it, who is responsible for progressing, the owner of the action and the status of the action. The approach of the call will be to understand the progress regarding actions outstanding from the previous meeting and then ask each area in turn to then raise specific issues. It is mandatory for someone from each business area to attend the call and on time.
