Subject: RE: Sparrow paper for the Board - Action required

Thanks Alwen.

I appreciate this is the product of a lot of hard work and careful thought. There is no risk free solution and the way we have to manage it today is unattractive. I support the proposal because it allows us to get a bit on the front foot and demonstrate our very positive intent to be fair to all concerned. It also allows us to make a step towards an end game. Of course, that could trigger a reaction, in parliament, the media or the courts but if it does, it is probably only hastening the inevitable.

A1

Subject: Sparrow paper for the Board - Action required

Dear All

Apologies for the number of attachment to this email. They relate to the Sparrow Sub Committee held on the 18th February and the subsequent recommendation to the Board for endorsement.

The Paper from Jane and Mark, shown as attachment A1, gives the background to the request and explains the other attachments.

Would you please let me know if you are happy to support the proposal.

Many thanks

Alwen
