# Contract Interpretation

Dionne & Lee

20<sup>th</sup> March 2018

---

## Scope and Content

---

- Currently the CVM team have no standard process for receiving, responding to or tracking Contract Interpretation.
- This creates a poor customer experience, duplication of effort within the CVM Team and loss of historical data.
- The goal is to have a repeatable process which creates a “go-to” place for sharing Contractual information and allows for organic growth.

## Our journey .....
