Dear Sirs

**The Post Office Group Litigation
Known Error Log and Unfiltered Transaction and Event Data**

We write further to our call on 1 March 2017 to provide an update on disclosure of the Known Error Log (KEL) and extraction of the unfiltered transaction and event data.

1. KEL

It was discussed on the call that extraction could be undertaken via a manual process of printing each of the KEL entries to PDF. Fujitsu have undertaken further analysis and informed us that it has been possible to automate the extraction process which will output each of the KEL entries into an HTML format. Please let us know if you have any issues with the documents being provided in HTML.

2. Unfiltered Transaction And Event Data

Post Office proposes that extraction and disclosure of the unfiltered transaction and event data should be limited to the 6 Lead Claimants who are progressing to trial. Fujitsu would therefore extract and provide the following months of data:

SPMR	Branch Name	Branch Code	Months
Stubbs	Barkham	212939	September 2009 to June 2010
Bates	Crag-Y-Don	461614	None
Dar	Lenzie	243855	November 2014 to 31 March 2017
Abdulla	Charlton	096007	January 2007 to July 2009
Sabir	Cottingley Crossflats	181306 182306	November 2007 to August 2009 (for both branches)
Stockdale	Sandsacre	219337	May 2014 to September 2016

If you believe that the unfiltered transaction and event data relating to the Lead Claimants who are not progressing to trial should be provided, please set out your reasons as to why it is necessary and proportionate to do so.
