Subject: PCI meeting where audit archive gaps was raised

Do any of you know more info on the PCI meeting where the audit archive gaps came up?

I'm hoping to better understand

- When was the meeting?
- Who attended the meeting?
- What was said on this subject in the meeting?
- Who described this subject from Fujitsu at the meeting?
- Are there any documented minutes from the meeting?
- Have there been any subsequent emails or call since the meeting on this subject?
- What actions were assigned at the meeting in relation to this subject?
