Subject: Janet meeting

Alice

I have updated Paula, who will be updating the Board this afternoon.

Janet was sure that James would want the meeting on the 8th to go ahead. I explained the problems we have with the SS approach, where they are only concluding a case if the spmr accepts the Post office's evidence, they are not using the base forensic data to come to their own verdict and putting that to the spmr.

Because of this they could be presenting cases on the 8th which are incomplete and saying they haven't got enough evidence. Janet said that James' would push them on this tomorrow, and we will do so this afternoon at 3pm when we see them face to face. (Susan is back for the meeting)

I asked Janet about James' conversation with Jo Swinson and she said he had alerted her because Second Sight had told him a couple of weeks ago that they 'think they have found something in the system' and he thought the Minister should know. SS did not tell us they had said this to James.

I suspect these are the two defects which were known to us, and which we flagged up to SS. The first of which 3 years ago has been discussed in court and is in the public domain. I shared this with Janet and showed her the small losses and explained that the subpostmasters who had any shortages were repaid and those with gains were allowed to keep them.

I talked Janet through the MP cases, and that we are being told that they have not found anything in the computer system to date, but that some processes could be improved.

We have now arranged for Paula and I to meet James face to face on Wednesday morning

Sorry off to the SS now

Thanks
Alwen
