Gavin,

We are digging this out.

I would guess that there is nothing specific – but will confirm – other than the common law obligation to maintain matters confidential. DC should not have any papers/documents/e-mails retained – but he can have his general recollection of what he took with him from Fujitsu.

I will confirm when we have the contract.

David

Hi David,

I believe David C has/is joining POL in some capacity – can you send me his contracts and highlight the gagging conditions please – I would like to consider what if any comms we might choose to have with him over his new role.

Kind regards,

Gavin
