Apologies Pete

Here are the questions (attached)

RFI 1.4

[RFI 1.4] Regarding POL-0032932.doc, what is the purpose of setting an NB102 exception to F99 by FJ?

a. How often has this occurred?

b. What is the cause of an 'Uncleared Transaction Corruptions' and how often do these occur?

Steve

I am not sure what the question was for item 1.4 since it does not appear to be in this e-mail trail. What I should point out is that the document attached is very old and has been withdrawn. The End to End reconciliation reporting document is SVM/SDM/SD/0020.

Steve B

PSA for responses so far, previously delivered.

- @ Pete Jobson – please look in the attached for a question (RFI 1.4 (POL-0032932.doc attached); This is about the purpose of setting exception F99 in the NB102 rules concerning Network Banking End to End Reconciliation (in old Horizon?). We think this needs Pete's input.) it is felt you could input to.

The suggestion is that SSC (cc') might need to help with many of the questions.
Also Gareth Jenkins is suggested – do you want me to call him in?

Steve

Hi Steve B,

I am not aware of an specific work that is outstanding on me regarding this.

If you think there is, please clarify what that work is.

Kind regards,
Jon

Hi gents

I know we are all very busy, but please give this request your earliest attention.

Pete is being asked for an update, daily.

Regards

Hi

When you are available, could you provide an update on where we are with this?

They are pushing for progress and ETA.

We may then need to agree a plan and way forward to complete the task.

Regards
