- 1 Α. No.
- 2 Q. -- nor the reasons why rollout had to be paused?
- 3 Α. No.

- From 2004 to 2007, you were the Senior Security 4 Q.
 - Manager for physical security; is that right?
- 6 Α. For the Post Office, yes.
- 7 Q. Were you required to perform task in that role
- that required an understanding of how Horizon 8 functioned in branches? 9
- 10 A. Very limited for Christmas duty.
- Q. Can you explain, please? 11
- So all employees would support the branch 12 Α.
- network at Crown Offices and would go onto the 13
- 14 counter and do the very most basic of services, like selling stamps. 15
- 16 Q. So it was just a knowledge sufficient to work at 17 a temporary cover level at Christmas?
- Even more limited than that, because it is very 18 Α. 19 basic products we would have been selling.
- 20 Q. Sorry, if you just keep your voice up. It was 21 very basic products?
- 22 Α. Such as selling stamps. It wasn't even extended 23 past those sort of areas. Very basic products.
- 24 Between 2004 and 2007, did you receive any Q. training on the use of Horizon? 25
 - 10
- 1 Q. Tell us about the evolution?
- Α. The Security Director or Group Security Director 2 left around about 2008 and he took on that role, 3
- 4 as well as the director of -- his existing role so it merged two roles. 5
- 6 Q. So he didn't move to Royal Mail Group to be the 7 Head of Security; he moved for another role and 8 then a year later also took over that role?
- A. No, he did go over to be the Head of security or 9
- Director of Security for Royal Mail Letters and 10
- then when the Royal Mail Group Director left he 11 12
 - took on that role as well as the Royal Mail
- 13 Letters role.
- 14 Q. Was there any chain of responsibility between 15 you and Mr Marsh, after Mr Marsh moved to the Royal Mail Group? 16
- 17 A. Once he took over the Group Security Director, 18 yes, there was dotted line.
- Q. What did the dotted line consist of? 19
- 20 Α. He was the Group Security Director responsible 21 for security across all business units within 22 the Royal Mail Group.
- 23 Q. So, for example, how often would you meet or 24 otherwise communicate?
- 25 I do recall going and meeting him two or three Α. 12

times in the first 18 months or couple of years,	1	
and less so thereafter.	2	
If you can tell us more about what a "dotted	3	
line" means. Was he responsible in any way for	4	
your management or supervision?	5	
Day to day, that's the responsibility of Post	6	
Office line management. He was responsible more	7	
for the security and yeah, the security	8	(
requirements across the business.	9	1
What does that mean, "He was responsible for the	10	
security requirements across the business",	11	(
insofar as that concerned you?	12	
So he had overall oversight of the security	13	1
within the Post Office, the strategy, the	14	(
direction, what we're delivering to, our	15	1
performance, et cetera.	16	
So would you say he had oversight of the	17	
discharge of the responsibilities of the	18	
Security Department within Post Office,	19	
including its leadership by you?	20	
l guess so, yes.	21	
We've heard from Mr Marsh it's the transcript	22	
for 5 July 2023, page 213, line 30 and on to	23	
page 214 that he did not enjoy a good working	24	
relationship between you. He said it wasn't 13	25	
where we were getting our largest losses or we	1	
were repeating the same type of investigations	2	
and prosecutions, and I wanted to do it more	3	
preventative, stop it at the outset, whether	4	
it's fraud or non-compliance, rather than just	5	
keep on investigating and prosecuting.	6	(
As such, the analysts would then draw up the	7	1
outliers, so we could see our branch profile,	8	(
and it was not within the sort of, the	9	1
boundaries of what all the other profiles of	10	(
that Post Office are, it was an outlier, and	11	1
that could be 1 to 50, 1 to 100 post offices	12	(
and, rather than investigating and looking to	13	1
prosecute all those outliers, I took	14	(

- 15 a preventative approach. 16 So we did letters out to them, we'd done 17 phone calls, we offered training, et cetera. 18 And his was very much he wanted every single 19 one investigated and, if necessary or 20 appropriate, prosecuted.
- 21 Q. How did he make this clear to you, that he
- 22 wanted everyone investigated and, if
- 23 appropriate, prosecuted?

- 24 A. I can't recall the discussions that we had when
- I went to meet him but, ultimately, he left me 25

1		a great working relationship and it wasn't
2		a good working relationship. First, is that
3		right?
4	Α.	We had a good working relationship up until
5		about a certain point around about 2008 and,
6		thereafter, it was a bit more of a distant
7		relationship.
8	Q.	Why was it a bit more of a distant relationship?
9	Α.	There was a complete disagreement in terms of
10		strategy around investigation and prosecution.
11	Q.	Was it a personality issue between the pair of
12		you?
13	Α.	No.
14	Q.	What was the nature of the disagreement, then?
15	Α.	I'd taken over as Head of Security for the Post
16		Office. The Investigation team, which I created
17		into the Fraud strand, was very much focused on
18		purely investigation and prosecution, whereas
19		I wanted to take a very much more preventative
20		approach, so to deter, to prevent, to disrupt
21		and then, if necessary, investigate and
22		prosecute.
23		And that approach took an analytical
24		approach, where we did a root cause in terms of
25		the MI on all the different products. We'd see
		14
1		a message to say that, as Group Security
2		Director, he was going to take over the
3		Investigation team, as from the following week,
4		and have it reporting into his Head of Criminal
5		Investigations.
6	Q.	If you didn't do what he said?
7	Α.	No, it was
8	0	In any event?

- Q. In any event?
- He was going to do that in any event. Α.
- Did that happen? Q.
- Α. No.
 - Why didn't it happen? Q.
- I reported it to my line manager --Α.
- Q. Which was who? 14
- 15 **A.** I believe it was Mike Young at that time but it is only I believe. It could have been Ric 16
- 17 Francis but I believe it was Mike Young.
- 18 Q. Sorry, I interrupted you. You reported it to 19 Mike Young and?
- 20 A. Obviously, I think there was conversations more
- 21 senior, then I was requiring to write a report
- 22 on the reasons and rationale of the strategy.
- 23 I think I got the Head of Fraud to write that.
- 24 That was submitted to Mike Young and
- 25 I understand the MD, Alan Cook, had 16

1		conversations with his senior executives in
2		Royal Mail Group and then it came back to say
3		I can continue with the prevention approach.
4	Q.	So would that be from about 2008 onwards?
5	Α.	2008/2009. I can't actually be precise.
6	Q.	Had you encountered any difficulties with
7		Mr Marsh before he moved on to the Royal Mail
8		Group?
9	Α.	No, he was my line manager for three years
10		before that.
11	Q.	Did you enjoy a good working relationship with
12		him then?
13	Α.	Yes.
14	Q.	In any event, you assumed the role of the Post
15		Office's Head of Security in 2007 and you stayed
16		in that position until you left the organisation
17		in 2016; is that right?
18	Α.	Yes.
19	Q.	Therefore, you were accordingly Head of Security
20		during one of the heaviest periods of
21		subpostmaster prosecutions; you know that now?
22	Α.	I accept that.
23	Q.	You presided over the cessation of prosecutions
24		from 2014 onwards?
25	Α.	I thought it was 2013 but if it's 2014
		17
1		decisions on prosecution.
2	Q.	You must know, therefore, what was done in order
3		to find an expert to speak to the reliability
4		and integrity of Horizon, mustn't you?
5	Α.	Sorry, can you repeat that?
6	Q.	You must know, therefore, as Head of Security
7		with those responsibilities, what was done to
8		find an expert witness who could speak to the

- 9 reliability and integrity of Horizon?
- 10 A. I was aware that there were enquiries going on.
- 11 I only recall being in one meeting with
- 12 an external potential SME.
- 13 Q. Who was the potential external?
- 14 A. It was a London university. I don't know which15 one.
- 16 Q. Were they prepared to give expert evidence17 standing up the reliability of Horizon?
- 18 A. It was an early meeting and, no, I don't think19 it was progressed thereafter.
- 20 **Q.** So the reason for the cessation of prosecutions
- 21 was twofold, is this right, on your
- 22 recollection: firstly, the subject matter expert
- 23 from Fujitsu had been discredited, according to
- 24 advice given by Cartwright King; a new expert
- 25 was needed but none could be found?

- 1 **Q.** The last months of 2013.
- 2 A. Yes.
- 3 **Q.** What was the driver for the change of policy?
- 4 A. Because the subject matter expertise (sic)
- 5 within Fujitsu had been discredited, apparently,
- 6 by the information that he'd been giving, the
- 7 evidence he'd been giving, and Cartwright King8 said he cannot be used and, therefore, the Post
- 9 Office needed to find another subject matter
- 10 expert to support any evidence.
- 11 Q. Could you find another subject matter expert to12 support reliance on the Horizon System?
- 13 A. By the time I left the Post Office, which is in
- 2016, no.
 Q. So no expert could be found in three years or so
- to support the reliability of Horizon; is thatright?
- 18 A. No. I wasn't really involved in those
- discussions, so I'm not too sure what was in thebackground but, as far as I'm aware, no.
- Q. You were the Head of Security, the department
 responsible for investigating and submitting
 files for prosecution and, in your case, making
- 24 decisions on prosecutions?
- 25 **A.** For a short period of time, yes, I made 18
- 1 A. Correct.

2	Q.	I think you retired in 2016, or you left the
3		Post Office in 2016, the year the Group

- Litigation was launched and a claim was issued.
- 5 Did you know about that before you left?
- 6 A. Not that I recall, no.
- 7 **Q.** Did you retire then or did you move on to
- 8 another job? 9 **A.** Moved on.
- A. Moved on.
- 10 **Q.** Was there any relationship between the
- 11 commencement of the Group Litigation in 2016
- 12 concerning the Horizon System and the data that
- 13 it produced being used for prosecutions and you
- 14 leaving the Post Office?
- 15 **A.** No.
- 16 Q. They were entirely unconnected events?
- 17 A. Yes.
- 18 Q. Can I turn to start asking you about the
- 19 substance of issues by looking at an issue which
- 20 arises towards the end of the era of private
- 21 prosecutions, so it's therefore out of turn in
- 22 the chronology. I want to start with it to work
- 23 out whether it tells us anything about the
- 24 values of the investigation and prosecution
- 25 functions of the Post Office more generally in 20

the earlier period. The topic is the recording	1	Α.	I don't recall actually having a working

That answer, "I don't recall", is capable of a wide range of possibilities, including "It's very likely that I did attend but I've got no present recollection, it being 10 years on, that I did", right down to, "I don't think that did. If I had attended I would remember it, albeit I've got no present recollection". The latter. Where in the spectrum are we? The latter. You don't think that you did? Correct.

4	Q.	You said you were told but not necessarily fully
5		briefed?
6	Α.	I don't recall getting a real briefing in terms
7		of the requirements of setting up the weekly
8		meetings.
9	Q.	Moving on to paragraph 3, he says:
10		"[The Post Office] accepted that advice and
11		[accordingly] a weekly conference-call meeting
12		was established so as to meet the requirement of
13		the central hub. Participants were informed

16		minutes were to be taken, centrally retained and
17		disseminated to those who required the

20		Is the first part of that paragraph correct,

The effects of that failure 18 however must be considered. I advise the 19 following to be the position: 20 "[Mr Jenkins] failed to disclose material 21 known to him but which undermines his expert 22 opinion. This failure is in plain breach of his 23 duty as an expert witness. 24 "Accordingly [Mr Jenkins'] credibility as 25 an expert witness is fatally undermined; he

Q. Can we go on to paragraph 4: "Three such conference calls were convened, each conducted on a Wednesday morning. A representative from Cartwright King solicitors 'attended' each meeting. A minute-taker was appointed for each call and I understand that each of the minute-takers retain their own handwritten minutes." We'll come back to all of that in a moment. 10 Can we move forward, please, to 15 July. That's 11 POL00006357. If we go to the last page, please, which is page 14, and scroll down, please, 12 13 you'll see that it's dated 15 July 2013. This 14 is known as the first Clarke Advice, yes? 15 If we go back to the first page, please, and 16 look at the first paragraph, Mr Clarke says: 17 "I am asked to advise [the Post Office] on 18 the use of expert evidence in support of 19 prosecutions of allegedly criminal conduct 20 committed by those involved in the delivery of 21 Post Office services to the public through sub 22 post office branches. should not be asked to provide expert evidence in any current or future prosecution. "Similarly, in those current and ongoing cases where [Mr Jenkins] has provided an expert witness statement, he should not be called upon to give that evidence. Rather, we should seek a different independent expert to fulfil that role. "Notwithstanding that the failure is that of 10 [Mr Jenkins] and, arguably, of Fujitsu Services 11 Limited, being his employer, this failure has 12 a profound effect upon [Post Office] and [Post 13 Office] prosecutions, not least by reason of 14 [Mr Jenkins'] failure, material which should 15 have been disclosed to defendants was not 16 disclosed, thereby placing [the Post Office] in 17 breach of their duty as a prosecutor. 18 "By reason of that failure to disclose, 19 there are now number of convicted defendants to 20 whom the existence of bugs should have been 21 disclosed but was not. Those defendants remain 22 entitled to have disclosure of that material 23 notwithstanding their now convict status. 24 (I have already advised on the need to conduct 25 a review of all [Post Office] prosecutions so as 28

1		to identify those who ought to have had the
2		material disclosed to them. That review is
3		presently under way).
4		"Further, there are a number of current
5		cases where there has been no disclosure where
6		there ought to have been. Here we must disclose
7		the existence of the bugs to those defendants
8		where the test for disclosure is met.
9		"Where a convicted defendant or his lawyers
10		consider that the failure to disclose the
11		material reveals an arguable ground of appeal,
12		he may seek the leave of the Court of Appeal to
13		challenge his conviction.
14		"In an appropriate case the Court of Appeal
15		will consider whether or not any conviction is
16		unsafe. In doing so, they may well enquire into
17		the reasons for [Mr Jenkins'] failure to refer
18		to the existence of bugs in his expert witness
19		statements and evidence."
20		Out of that, how much were you told?
21	Α.	I don't recall being told that.
22	Q.	You were told none of this?

3	A.	Yes.
4	Q.	That can come down, thank you.
5		The next step is 19 July 2013 and you'll
6 7		recall that in the second Clarke advice, the one

10		accordingly, a weekly conference call was

12		accurate?
13	A.	Yes.
14	Q.	Now, the first hub meeting was on 19 July 2013.
15		Can we look at that, please, POL00083932. Can

20	Q.	Now, I don't think you're listed as being in

22	Α.	Yes.
23	Q.	Can you see under "Security", Dave Posnett and
24		Rob King are listed as being in attendance?

25 I think this was a telephone call, rather than 32

6	Α.	He was the Senior Security Manager or otherwise

9	Q.	So was he a deputy to you?
10	Α.	No, the way that I structured the department was
11		that there were five strands, each with their

19	Α.	Yes.
20	Q.	So you were his line manager?

1		take a load rather than deputies for me
2	Q.	take a lead rather than deputise for me. So you asked him to conduct the meeting
2	Q. A.	Mm-hm.
4	д. Q.	is that right?
5	A.	I believe so, from looking at the documentation.
6	Q.	You tell us in your new witness statement, the
7	۹.	one you filed yesterday, that you think you
8		delegated the task to Rob King of chairing the
9		meeting; is that right?
10	Α.	Yes.
11	Q.	If we scroll through the minute, please, stop
12		there:
13		"Outlined the purpose of the meeting; to
14		identify any issues around the integrity of
15		Horizon from a technical prospective and take
16		any necessary action."
17		Does that describe, as you understand it,
18		the function or purpose of the meeting?
19	Α.	Yes.
20	Q.	It says:
21		"A process needs to be set up within each
22		directorate where each representative
23		proactively seeks out any technically with
24		Horizon.
25		"No minutes circulated, but we will be 34
1		orders then?
2	Α.	Yes.
3	Q.	You were just following orders?
4	Α.	Looking at the document, that's how I received
5		the brief and that's how I briefed Rob King.
6	Q.	Then the part of the sentence "but we will be
7		taking notes", ie Security will be taking notes;
8		is that how you would understand it?
9 10	A.	Yes.
10 11	Q.	Was that part of the order that you passed on: that it would be the Security Department that
12		would be taking notes?
12	A.	Yes, looking at the email exchange, it was clear
14		that I wanted notes taken.
15	Q.	If we carry on scrolling through the document,
16	щ.	please, and then stop there. Under "Martin
-		

- 17 Smith", do you remember who Martin Smith was?
- 18 A. Yes.

24

- 19 **Q.** Who was Martin Smith?
- 20 A. A lawyer at Cartwright King.
- 21 Q. So he was a solicitor at Cartwright King, yes?
- 22 He, in the second part of the note that's
- attributed to him says:
 - "Clarification on disclosure and email
- 25 correspondence."

1		Then in a sentence that is difficult,	1
2		perhaps, to decipher:	2
3		"Emphasised need to ensure that any document	3
4		produced would be potentially disclosable."	4
5		Do you remember giving any instructions	5
6		along those lines?	6
7		l don't recall.	7
8	Q.	Would you understand this to mean that this is	8
9		simply recording the fact that, if a document is	9
10		produced, it needs to be retained so that it can	10
11		be disclosed?	11
12	Α.	Yes.	12
13	Q.	There's nothing wrong with that?	13
14	Α.	Doesn't look wrong. Doesn't say what if you	14
15	~	don't write it down but doesn't look wrong.	15
16 17	Q.	Yes. It's saying, if any document is produced,	16
17 18		one reading of it is there is a need to ensure that it is retained so that it's disclosable?	17
10	Α.	Mm-hm.	18
20	A. Q.	Mr Posnett makes a contribution and Andrew	19 20
20 21	Q.	Parsons then speaks. Who was Andrew Parsons?	20
21	Α.	A lawyer with Bond Dickinson.	21
23	Q.	Did you, at this time, have any dealings with	23
24	ч.	Bond Dickinson?	23
25	Α.	I don't recall particularly at that time but	25
		37	
1	A.	Because everything would need to be disclosable.	1
2	Q.	Was it fed back to you that Mr Parsons had given	2
3		this advice at this meeting?	3
4	Α.	l don't recall.	4
5	Q.	Can we move forwards, please, to 24 July, the	5
6		next meeting, the second hub meeting. The	6
7		reference for that is POL00083933. Thank you.	7
8		So we can see similar format, "Regular Call re	8
9		Horizon Issues", meeting on 24 July, and we can	9
10		see that you're not recorded as being present	10
11		but, from Security, there's Mr King again and	11
12		Andrew Wise. Who was Andrew Wise?	12
13	Α.	A Security Manager within the Security	13
14		Operations team, Investigator.	14
15	Q.	Again, we can see that Mr King starts the	15
16		meeting off and, again, was it your	16
17		understanding that he was essentially chairing	17
18		the meeting?	18
19	Α.	Yes.	19
20	Q.	Was he reporting back to you what was happening	20
21	_	at each meeting?	21
22	Α.	From the email exchange with Susan Crichton, it	22
23	_	says he was being I was being debriefed.	23
24	Q.	You were being briefed about it?	24
25	Α.	Yes.	25

there may have been engagement at some point over the years. There was a couple of occasions where I dealt with Bond Dickinson but very rarely. Q. Anyway, the solicitor from Bond Dickinson says there was a: "... need to limit public debate on the Horizon issue, as this [might] have detrimental impact on future litigation." 0 Then if we scroll on, please, and keep 1 going. Then if we go to Mr Parsons again, 2 Mr Parsons is recorded as saying, in the second part of this paragraph, that he: 3 "Spoke about emails, written 4 5 [communications], etc ... if it's produced it's 6 then available for disclosure, if it's not then 7 technically it isn't." 8 What do you understand that to mean? 9 A. The way that it's written there, that if 0 something is written down, it's definitely disclosable, but if something is not, then, as 1 2 he says, technically it isn't. 3 Q. Is that a view to which you would subscribe? 4 A. No. 5 Q. Why not? 38 Q. Again, in the second paragraph there, Mr King is recorded saying: "No minutes circulated, but we will be taking notes. In scope were issues and problems

the group were made aware of." So that's materially the same as the warning given at the beginning of the first meeting, yes? A. Yes. 0 Q. Again, does that reflect the instruction that 1 you gave to Mr King, passing on what Susan Crichton had told you to tell the meeting? 2 3 A. Yes. 4 Q. Can we move forward to 31 July, please. POL00139732. So this is the date of the third 5 6 hub meeting on 31 July 2013. We can see that, 7 again, you're not recorded as being present or joining the call. It's Mr King and Mr Posnett 8 representing the Security Department, and 9 0 Mr Posnett is opening the meeting. Does that mean, by this time, Mr Posnett had been put in 1 2 charge of chairing the meeting? 3 A. No, it would be Rob King. 4 Q. He remained the chair or the leader of the 5 meeting, is that right, to your knowledge? 40

1	Α.	Until mid-August.
2	Q.	When you took over?

6		Can we move forwards, please, to 31 July

25 A. Correct.

1		because it was very early on, but it's not to
2		say I didn't have the call with them. But
3		I don't believe that it would have been me.
4	Q.	You'll see that the way that Mr Smith wrote his
5		attendance note is one person is referred to as
6		"JS", can you see that in both the summary and
7		in the detail?
8	Α.	Yes.
9	Q.	And the other person is referred to as "JScott"?
10	Α.	Yes.
11	Q.	Let's assume, for the moment, that this is
12		Mr Smith speaking to Jarnail Singh, at 6.00 pm
13		on 31 July 2013, and was telling Mr Smith that
14		you, "JScott", had instructed typed minutes to
15		be scrapped. Did you give an instruction that
16		typed minutes would be scrapped?
17	Α.	I do not recall what I said or how I said it or
18		in what clunky way.
19	Q.	Did you say "in what clunky way"?
20	Α.	Yeah, or how it was interpreted. But I don't
21		recall asking for any minutes to be scrapped.
22		"Scrapped" is not a word I would have
23		particularly used to destroy or delete minutes.
24		"Scrapped" is more like a process, ie scrap
25		a process going forward.
		42
1	Q.	We've seen that typewritten minutes were, in
2		fact, being kept. We've just looked at three
3		lots of them, haven't we?
4	Α.	Correct.
5	Q.	That would be contrary to the instruction that
6		you gave, wouldn't it?

- 7 A. I'm a bit lost on the point.
- 8 Q. If the Security Department were going to keep
 9 their own notes --
- 10 A. Yes.
- 11 Q. -- and somebody else had, in fact, been keeping
 12 a typewritten version of what had happened at
- the meeting, ie the three documents we've justlooked at --
- 15 **A.** Mm-hm.

- 16 **Q.** -- that would be contrary to the instruction you
 - had given, wouldn't it?
- 18 A. Yes, in principle, yes.
- 19 Q. Therefore, if it was contrary to the instruction
 20 you had given, you would want it to be stopped,
 21 wouldn't you?
- 22 A. Once they are there, they're there. I might
- 23 have wanted, in the future, the process to be

- 25 are there, they're there. And if you refer back 44

8 9	Q. A.	What's the point that you're making?
9 10	А.	In terms of lawyers, we were saying that, if it's written down, it's disclosable; if it's
11		not, then technically it's not. And that's from
12		an external lawyer as well.
13	Q.	What's the significance of that, in your mind?

15		it may have come from or what was going on in
16		the Post Office.
17	Q.	So I understand it correctly, you're saying it

20		a reference, given the similarity and language
21		used, to what Andrew Parsons from Bond Dickinson
22		had said in that first meeting?

24	Q.	Thank you. But, in any event, aside from what
25		Andrew Parsons from Bond Dickinson said, about

2	Α.	No.
3	Q.	Was that because of the intervention of Susan
4		Crichton?
5	Α.	Going by my email, that appears to be the case.
6	Q.	In that there weren't to be centrally retained
7		minutes, and such minutes were not to be

9	Α.	Minutes were to be taken, that was very clear in
10		my email exchange, and they were taken. They

8	Α.	l don't recall.
9	Q.	That's more similar to what you have said you

11	Α.	I don't recall whether I've actually asked for
12		that or he's decided to say that.
13	Q.	Did you want to be the custodian of any minutes?
14	Α.	That would be very unlikely that I'd want to.
15	Q.	Why would it be unlikely?
16	Α.	Because that's not what I see my role as. If

- 18 probably, I don't know, other people.
- 19 Q. Who else?
- 20 A. It's hard to say. I wouldn't expect lawyers to21 be saying that.
- 22 Q. I'm talking at the moment the people involved in23 this enterprise, who amongst them would have the

A. Yes. 11 12 Q. To (iv), please: "Some at [Post Office] do not wish to minute 13 14 the weekly conference calls." 15 Do you know who at Post Office may not have 16 wanted to minute the weekly conference calls at 17 all? A. I can only go by my email exchange with Susan 18 Crichton and that's the brief. 19 20 **Q.** What does that mean? 21 A. She didn't want minutes being circulated to 22 reduce the risk. 23 Q. This is a different issue again. This is not 24 minuting the calls at all. Were you aware of 25 any such instruction being given?

1	Α.	No, I don't recall having that conversation.
2	Q.	Also on this date, 2 August, can we look,

14		Then further up the page, we can see

21	Α.	No.

11		Do you know who the "faction" within the

- Q. Why did you want handwritten notes to be 3 4 created?
- 5 A. To ensure that all the information was captured.
- Q. Why not electronic notes? 6
 - Because that's the brief I had from Susan Α.
- 8 Crichton.
- 9 Q. It's because they're not easily discoverable,

- A. I don't know on that one. 11
- 12 Q. They leave no trace, don't they? They can be hidden away in a cupboard, can't they? 13
- 14 A. I can only take my brief from Susan.
- 15 Q. An electronic note leaves a footprint, doesn't it? 16
- 17 Yes. Α.
- 18 Q. The fact that it existed but has been deleted

- 20 Α. Yes.
- 21 Q. That's why you don't want electronic notes created, isn't it? 22

- 24 Q. I'm asking you about why you wanted handwritten

8	Q.	It's because they are less likely to be founding

10	Α.	In terms of that she I can only assume from
11		my second paragraph that she wanted to reduce
12		the risk of FOI disclosure with the legal
13		privilege not wrapped around it.
14	Q.	Let's turn to the second paragraph:
15		"The conference calls have been set up and
16		they are chaired by a senior manager from the
17		Security team and then I'm briefed thereafter
18		(I wasn't aware I had to specifically Chair, but
19		that is easily remedied). At the outset the
20		purpose of the call was given that this was
21		an informal escalation point and no electronic
22		notes would be taken or circulated [and then]
23		and communication would be created", which looks
24		likely an incomplete part of a sentence.

2 3		Just stopping there. Why would electronic notes not be taken?
3 4	•	Because that's the brief.
4 5	A. Q.	Is it because the taking of an electronic note
6	Q.	would create a potentially disclosable record of
7		the call?
, 8	Α.	Potentially, ves.
9	Q.	Was it so that disclosure obligations in
9 10	Q.	criminal proceedings could be avoided: if you
11		don't create an electronic record of
12		a discussion, you don't have to disclose it?
13	Α.	•
14		both internal and external. They were being
15		briefed on all the issues being escalated and
16		notes were being taken.
17	Q.	An electronic record has the distinct
18		disadvantage, doesn't it, would you agree, for
19		a person who wishes to subvert their disclosure
20		obligations, that an electronic record can be
21		looked for and more easily found by others?
22	Α.	Correct, it's more easily
23	Q.	Sorry?
24	Α.	Correct, it's more identifiable.
25	Q.	It's difficult to remove all traces of
		70
1		the outset of the conference calls:
2		" the purpose of the call was given that
3		this was an informal escalation point and no
4		electronic notes would be taken or circulated
5		
6		Did you give that instruction to Mr King?
7	Α.	Going by this email, I suspect I did pass that
8	~	brief on to Rob King.
9	Q.	Did anyone that you spoke to ever push back and
10		say, "Hold on, why aren't we allowed to keep an electronic record?"
11 12	Α.	l've no recollection.
12	A. Q.	Did anyone say, "Hold on, why aren't we allowed
13	Q.	to communicate about these matters using
14		electronic means?"
16	Α.	No recollection.
17	Q.	Was there a common understanding, a meeting of
18	ω.	minds, amongst those in the Security Department
19		and those on the call that the reasons for not
20		creating disclosable records about Horizon
20		integrity issues was that that would avoid
22		having to disclose documents about Horizon
23		integrity issues in the future?
24	Α.	l've no recollection but that wasn't the culture
	<u> </u>	

(18) Pages 69 - 72

1	Q.	It wasn't the culture?
2	Α.	No. Notes were made, solicitors were briefed.
3	Q.	You continue:
4		"For example, a potential Horizon glitch was
5		raised that had been reported previously to
6		Simon Baker. This was then managed consequently
7		directly with Rodric Williams and Steve Beddoe
8		by myself in a manner to bring it under legal
9		privilege as far as possible."
10		So you managed an issue to bring it under
11		legal privilege as far as possible. What did
12		you do to bring this issue under legal privilege
13		as far as possible?
14	Α.	I can only go by that email, as in I must have
15		brought Steve Beddoe into contact with Roderick
16		Williams, who would have then dealt from there
17	~	on in.
18	Q.	
19 20	•	that what you're saying?
20 21	Α.	(The witness nodded).
21		And he would determine what's legal privilege or not.
22	Q.	Why did you want to manage the issue under the
23 24	ω.	cloak of legal privilege?
25	Α.	Because that's the direction in terms of the
20	л.	73
1		integrity issues should be managed, so far as
2		possible, under legal privilege?
3	Α.	
4	Q.	Who are the possible candidates for it?
5	Α.	Clearly my line manager Susan Crichton. There
6		may be others.
7	Q.	Can we move on, please, to paragraph 5, which is
8		the last paragraph the one beginning "Clearly":
9		"Clearly I will now attend the conference
10		calls as Chair and following on from the
11		previous discussions and the steer below, unless
12		otherwise directed, this will become a formal
13		meeting with terms of reference, electronic
14		notes, actions and appropriate governance within
15		such approach. This will be built into the
16		operating and governance model and the previous
17		notes and actions over the last three will now
18		be electronically recorded and circulated. This
19		does run the risk that more communication will
20		be generated electronically with issues, reports
21		and actions responded to etc that may include
22		inappropriate comments, opinion, assumptions
23		that may be subject to FOI and Disclosure (as in

- that may be subject to FOI and Disclosure (as in
- the Helen Rose report)."
 - To your recollection, was there a reply to

1		Legal Services wanted to take. They wanted to
2		have access and sight and decide whether they
3		wanted legal privilege, as applicable, or not,
4		going by that email.
5	Q.	You were aware of Horizon system issues that
6		would require management by both the Post Office
7		and Fujitsu at this time
8	Α.	Yes.
9	Q.	including Horizon system issues that could
10		lead to discrepancies or shortfalls or losses
11		being shown?
12	Α.	I was aware there was issues being raised.
13	Q.	Why would those require to be managed "in
14		a manner to bring them under legal privilege as
15		far as possible"?
16	Α.	l can't recollect.
17	Q.	Whose idea was it to manage Horizon system
18		integrity issues in a way to bring them under
19		legal privilege, as far as possible?
20	Α.	l can't recollect.
21	Q.	Was it a decision of Post Office or Fujitsu or
22		both?
23	Α.	I've no idea on that.
24	Q.	If it was within the Post Office, who was
25		responsible for determining that Horizon
		74
1		this from Susan Crichton?
2	Α.	I don't recall. I don't even recall this email
3		until it was sent to me.
4	Q.	To the best of your recollection, did she say,
5		"Hold on, we've got disclosure obligations.
6		That's not a reason not to create documents"?
7	Α.	I've no recollection.
8	Q.	Why were you raising the risk of the generation
9		of information electronically that may be the
10		subject to disclosure in a court?
11	Α.	Sorry, can you
12	Q.	Yes. In that last paragraph, why were you
13		running the risk, saying, "If I do what you're
14		now telling me to do, which is have a more
15		formal meeting with some terms of reference,
16		creating electronic notes, operating under
17		a governance model, you should know that that's
18		going to create documents that might be
19	_	disclosed"; why were you telling her that?
20	Α.	Because it appears from the earlier paragraphs
21		that she didn't want documents widely

- circulated. Then that would come -- avoid legal privilege.
- 24 Q. So were you saying, "Be careful what you wish
- for, Susan"?

1	Α.	In part, looking at that, yes.
2	Q.	Did that form part of your considerations when,
3		in August 2013, you had to make decisions as to
4		the approach to be taken with the Horizon hub
5		meetings on Wednesdays?
6	Α.	So I don't recollect this email at all and
7		whether it had a part on that decision, 2013, or
8		not, I have no idea.
9	Q.	It says "It is important that we control the
10		creation of documents. Your Staff should think
11		very carefully about committing anything to
12		writing, in particular if they are critical of
13		the Horizon System or the reliable of its data".
14		Isn't that what you were instructing should
15		occur in the July and August Horizon hub calls?
16	Α.	In terms of the hub calls it was about informing
17		the solicitors in terms of all the issues and
18		for them to decide whether legal privilege would
19		then apply.
20	Q.	Sorry, say that again: in terms of the hub calls
21		it was about informing the solicitors for them
22		to decide whether legal privilege should apply?
23	Α.	So, obviously, the issues were being picked up
24		and dealt with and progressed but, of course,
25		you had lawyers on the call to make
		86
1		that the duty to record and retain is being
2		deliberately flouted, or avoided. Again to do
3		so would amount to breaches of both the law and
4		Codes of [Practice]."
5		Then this:
6		"A decision-based failure to record and
7		retain material would readily amount to such
8		a practice. Such a decision, where it is taken
9		partly or wholly in order to avoid future
10		disclosure obligations, may well amount to
11		a conspiracy to pervert the course of justice on

3	Q.	Can we go, after that excursion, back to where
4		we were in the chronology, to POL00083930. As
5		I mentioned earlier, the conference call on
6		14 August shows that you're present. Despite
7		what we'd read earlier about it being
8		inappropriate for you to join the call, you and
9		others are on it.
10		Were you ever told that there was doubt
11		about whether you were going to be permitted to
12		take part in this call and future conference
13		calls?
14	Α.	No, I don't recall that at all.
15	Q.	After your email exchange of the 13th and this
16		day, the 14th, with Ms Crichton, you just turned
17		up on the phone?
18	Α.	No. I said in my email that I would now be
19		attending and chairing.
20	Q.	Yes, but you didn't know that there had been in
21		the background this discussion amongst lawyers
22		about whether
23	Α.	No.
24	Q.	it would be appropriate for you to attend or

2	Q.	You just joined the call?
3		Can we move forward to 19 August, please,
4		POL00139691. This is a later email trail
5		involving Rob King, Jarnail Singh and then
6		earlier Dave Posnett and Andy Parsons. I don't
7		think you're copied into it. Can we look at the
8		second page, please, then look at the foot of
9		the first page, please and then scroll up,
10		please. We see an email from Mr King of your
11		department to Mr Singh:
12		"Apologies if I seemed a little evasive
13		earlier. To date I have worked to the remit of
14		establishing a group whereby issues and concerns
15		are raised and recorded (see below). However
16		with an initial mandate of not circulating notes
17		made, it is difficult to apply the usual
18		governance on the process. Notes have been
19		typed, actions captured and will be circulated.
20 21		This should provide the proper framework for
21 22		resolving issues. I was under the impression that a working group would be set up to deal
22		with these, placing the weekly conference call
23 24		superfluous. Investigators have been instructed

9		In September 2013, Susan Crichton left the

18	Q.	Why did Susan Crichton leave?
19	Α.	l have no idea.
20	Q.	She was somebody with whom you worked closely?
21	Α.	She was my line manager, yes.
22	Q.	And she was somebody who you worked closely

- 2 A. Right.
- 3 Q. That document can come down, please. In your
- 4 witness statement of yesterday you've analysed
- 5 the contents of a series of documents that were
- 6 created concerning the July and August 2013
- 7 weekly meetings and you've made points about8 them, drawing extracts from them and analysing
- 8 them, drawing extracts from them and analysing9 them, over the course of 10 pages or so.
- 10 **A.** Yes. I've made observations.
- 11 **Q.** That's in relation to an allegation that's been
- 12 made against you in the past, that you were
- responsible for an order that minutes should beshredded?
- 15 **A.** Yes.
- 16 Q. When you were reviewing the sufficiency of
- 17 evidence to prosecute subpostmasters, did you
- 18 subject that evidence to the same level of
- 19 scrutiny?
- 20 A. In terms of prosecution decision?
- 21 Q. Yes.
- 22 **A.** I'd have expected to have done so, yes.
- 23 **Q.** Because we can see from your witness statement
- 24 that, where the allegation is made against you,
- 25 you analyse all of the material, pull parts from 101
- 1 prosecuted?
- A. Obviously, you sent me a document where it does
 say prosecution won't go forward.
- 4 Q. In your nine years as Head of Security --
- 5 A. Yes?
- 6 Q. -- how many times did you say that a case should7 not be prosecuted?
- 8 A. I can't recall.
- 9 Q. Can we turn to the offender report, which you
- 10 just mentioned.
- 11 **A.** Mm-hm.
- 12 Q. So moving way from the approach taken to
- 13 disclosure to the creation of reports for the
- 14 purposes of bringing criminal and disciplinary
- 15 proceedings against subpostmasters and clerks.
- 16 Do you recall a document called "Security
- 17 Operations Case Compliance"?
- 18 A. No, you've sent it to me in the bundle but19 I don't recall that at all.
- 20 **Q.** Can we look at it, please. POL00119917. Thank
- 21 you.

- Can you see that this is a document headed
- 23 up "Security Operations Team -- Case Compliance"
- 24 so the Security Operations team came under your
- 25 responsibility?

- 1 here and there, put them together and draw
- 2 inferences from them?
- 3 A. (The witness nodded)
- 4 Q. Make denials, agree with certain things, yes?
- 5 A. (The witness nodded)
- 6 Q. Is that what you did when you were reviewing7 files against subpostmasters?
- 8 A. I'd have read all the file documents that were
- 9 forwarded to me. I would have read the suspect
- 10 offender report. I'd have probably read the
- 11 tape summary and most definitely the legal
- 12 advice that would have been provided.
- 13 Q. Did you read the underlying material?
- 14 A. Online material?
- 15 Q. Underlying material, rather than somebody else'ssummary or views of it?
- 17 A. I may have looked at, on occasions. I'm not
- 18 saying that I would look on every single
- 19 occasion.
- 20 Q. Or did you think, because it had passed through
- Legal and they had recommended prosecution thatit was your job to rubber stamp it?
- A. No, I would still be looking to -- just to knowand understand.
- 25 **Q.** Did you ever say a case should not be 102
- 1 **A.** Yes.

1	Α.	Yes.
2	Q.	This is in relation to a particular case. We've
3		got lots and lots of these, in the same or

10	Α.	Mm-hm.
11	Q.	There are 50-items against which compliance is
12		seemingly judged; can you see that?
13	Α.	Yes.
14	Q.	Then, in the right-hand column, there is a mark,
15		a compliance score as a percentage, which, if
16		the person submitting the file gets it all
17		right, they get 100, so 100 per cent. This

19		you see that?
20		Do you remember this case compliance
21		approach
22	Α.	No, I've no recollection at all.
23	Q.	in which issues are identified and

- A. I just have to give my apologies that I did not
- 2 see that or the senior management of the 3
 - Security Operations Team didn't spot it.
- Q. Can we turn, please, to POL00118152. This is 4 another one of the suite of documents that was
- 5 6 regularly distributed to your staff. In the pro
 - forma for the discipline report and the offender
- 7 8 report, there was a section which required the
- maker of the report to include an identification 9
- 10 code and this document was part of the suite of
- 11 documents distributed to them, telling them
- which identification code to use. Do you see 12
- 13 anything wrong with this document?
- 14 Very much so. It's very racially offensive. Α.
- Which parts? 15 Q.
- 16 Α. I'd say it's all.
- 17 Q. Sorry?
- 18 Α. All.
- 19 Q. This was distributed regularly to your staff on
- 20 your watch telling the staff that they needed to
- 21 use these codes and they would be audited for
- 22 compliance if they didn't. How did that come
- 23 about?
- 24 Α. I have no recollection. I do not recall this
- 25 document. Had I seen it, I'd have challenged 114
- 1 Δ I have no idea. I don't have that level of 2
- operational detail.
- 3 Q. If reporting to the police was the purpose of 4 noting identification codes down for suspects, 5 wouldn't one need to know what the police
- identification codes were, rather than these 6
- 7 Post Office ones?
- 8 A. That would make sense.
- Q. Can you think of any other purpose, if the 9
- purpose wasn't to report matters to the police, 10
- for recording a suspect's identity --11
- 12 Α. No.
- 13 Q. -- ie their ethnic or racial origin?
- 14 A. No.
- 15 Were any statistics compiled of how many Q.
- "Siamese" people were prosecuted, how many 16
- 17 "Negroid types" were prosecuted, and how many
- 18 "Sicilian" people were prosecuted?
- I've no recollection of ever doing that. 19 Α.
- 20 Q. Would therapy any purpose in recording that 21 information?
- 22 No. Α.
- 23 Q. When you saw this document, it therefore came as
- 24 a complete surprise to you?
- 25 A. Yes.

Q.	Who was responsible for issuing case compliance

- 2 instructions to the 100, falling to 50, staff?
- 3 A. Can I just clarify, when I talk about 100 down
 4 to 50 staff, that was across all the five
- 5 strands, not just purely the Fraud strand or the
- 6 Security Operations strand, when you make
- 7 reference to that number.
- 8 Q. Okay. So presumably a smaller number then?
- 9 **A.** Yes.

1

- 10 Q. For those involved in fraud investigation and
- security operations, how many did you start withand how many did it fall to?
- 13 A. I'd say probably in the region of around about
- 14 60 to start off with. Towards the end, I will
- 15 struggle to think, because we -- or I merged two
- 16 teams together, the preventative physical team
- 17 with the fraud team, to make the security ops,
- 18 and there was an element of multi-skilling. So
- 19 how many were actually left to do the
- 20 investigation, I couldn't actually recall.
- 21 **Q.** But that number, 60 at the beginning and then
- less than 60 at the end, who was responsible forissuing to them the kind of documents, the three
- 24 documents, that I have mentioned?
- 25 **A.** Yes, that would have been down to the senior 117

....

1	Q.	Would they not tell you "We're issuing cas	se
---	----	--	----

- 2 compliance requirements and auditing staff3 against them"?
- 4 A. I may have been briefed at a one-to-one.
- 5 Q. But the documents that I've shown you -- the
- 6 instructions on case file compilation, the Excel
- 7 spreadsheet of case compliance scoring and the
- 8 identification codes document -- were all
- 9 a surprise to you when you saw them recently?
- 10 A. Yes. They may have come across my desk at some
- 11 point but it's not documents that I'd actually
- 12 get involved in because it's at an operational
- 13 level, that I would leave to the senior managers14 of the strand.
- MR BEER: Sir, thank you. I'm about to move toa separate topic and it's just coming up to
- 17 1.00. I wonder whether we might break until
- 18 2.00.
- 19 SIR WYN WILLIAMS: Of course, yes.
- 20 I take it you're aware that you shouldn't
- 21 speak to anyone about your evidence during the
- 22 lunch break, Mr Scott. I'm sure you probably
- 23 don't want to but, if there are things that you
- 24 would wish to speak to your lawyers about, then
- 25 just let Mr Beer know what you want to talk to

- management of the Security Operations team.
- 2 Q. Who was that in the relevant period?
- 3 A. What year are we talking?
- 4 **Q.** We've got emails showing that this was in
- 5 circulation between 2008 and 2012 and there was
- 6 further circulation, I think, up until 2016, so
- 7 really across your period of office?
- 8 A. Okay. I think I have listed it in my statement
- 9 and so I think Dave Pardoe --
- 10 **Q.** Yes.
- 11 A. -- lain Murphy --
- 12 **Q.** Yes.
- 13 A. -- rob King and Amy Quirk.
- 14 Q. Would they not come to you and say, "Look boss,15 we're introducing this thing called case
- 16 compliance. These are the things we're going to
- 17 ask for compliance with, one of them is we
- 18 require a particular font and line spacing", and
- 19 you say to them, "Well, hold on that's a bit
- 20 petty", or "That's a good idea, I like

be involved in.

- 21 everything to be produced in the same font";
- 22 would they not come to you with things like
- 23 that?

- 24 A. No, that's not the level of detail that I would

19	This is an email chain, so we're going to
20	have to start at the back which is at page 8,
21	please.
22	If we just scroll down a little bit, please,
23	and a bit more. We can see this is an email

1		the top of the page. It's to Mandy Talbot,
2		a lawyer within the Post Office, and others, Lin

4		and it's to do with a large debt outstanding in
5		the Alresford branch, okay?
6		She says:
7		"Mandy, I am aware that there are many cases
8		at the moment, both current and
9		[ex-postmasters], where there are challenges
10		regarding the integrity of the Horizon system."
11		Just stopping there at the moment, at that
12		time, were you aware of many cases in which the
13		integrity of the Horizon system was being
14		challenged, February 2010?
15	Α.	I was becoming aware because of the JFSA but
16		I wasn't aware of explicit examples.
17	Q.	We're going to see in a moment that you're
18		copied in to this chain?
19	Α.	Mm-hm.
20	Q.	Okay. But you say you were aware because of the

2		Then can we go, please, to page 7 and look
3		at the foot of the page. We can see this is
4		an email, if we just scroll on, from Mandy

6		Change & IS and she says to him:
7		"Has [the Post Office] received requests

10		any objection to meeting with a 'computer

13		may be beneficial in resolving this case but it
14		will set a precedent. If we refuse I anticipate
15		there is no way that we will be able to recoup

3	Q.	Had you seen an article in Computer Weekly in

5	Α.	l've seen it in the bundle. I don't recollect
6 7	Q.	it but I may have seen it. Were you aware of some coverage by the BBC in
8	α.	2009/10 over Horizon integrity problems?
9	Α.	I don't recall that.
10	Q.	In any event, this contract advisor for South
11		East England, or one of them, is aware of many
12		cases where there are challenges regarding the
13		integrity of Horizon.
14		Then in the next three or four paragraphs
15		she sets out some background to the case in
16		particular, okay, which we needn't read.
17		Essentially, there was a debt and she wants some
18 19		advice, please, from Mandy Talbot, the lawyer,
19 20		about how to handle it. It seems like there must have been an attachment to it. which we
20		haven't got, concerning a request for access for

23		witness.
24		She says at the end, Ms Ballan:
25		"Please can I have your advice on a response 122
1		So we've got somebody in the southeast of
2		England asking for advice on a particular
3		branch, it being routed by Mandy Talbot to David
4		Smith.
5		Then if we can look, please, at his reply.
6		We can see it's signed off at the end of the
7		page there. We actually have to go to page 5,
8 9		the foot of the page at page 5:
9 10		"Mandy, "Forgive me if this is a rather long
11		response but it's important given my impending
12		departure from the Post Office that my logic is
13		fully understood after I'm no longer around to
14		ask.
15		"I've been embroiled in the various
16		newspaper, TV and flag case letters all claiming
17		that Horizon is at fault. As yet I haven't seen
18		a single shred of evidence to back up these
19		claims. However, a recent meeting with MPs
20		encapsulated the issue we face very nicely.
21 22		People know that computer systems go wrong from
22 23		time to time, particularly government computer systems, and, therefore, believe that a computer
20		

- 24 system such as Horizon could have caused these
- 25 discrepancies. As long as the argument is 124

1		carried out on the level of what could happen
2		then we will always struggle to win it. Our
3		greatest chance of winning the argument case by
4		case is to fix the debate on what actually
5		happened.
6		"Two cases of which I believe you are
7		familiar further reinforce this view and shape
8		my response to your question. In the case
9		referred to as Cleveleys an independent expert
10		was appointed. Unfortunately [the Post Office]
11		and Fujitsu did not manage this spectacularly
12		well and probably fielded the wrong people or at
13		the very least insufficiently briefed people.
14		I read the so-called experts report and I have
15		to say it was far from the professional effort
16		I would have expected. There was no sign of
17		a systematic approach to evidence gathering or
18		that the expert had gained essential knowledge
19		of how Horizon enables accounting integrity to
20		be maintained. The expert concluded that
21		Horizon could have created discrepancies.
22		Crucially the audit logs which would have proven
23		what did happen on the system had not been
24		retained. We settled out of court. This matter
25		was determined on what could have happened." 125

1		Stopping there, the reference to the
2		Cleveleys case, when did you first become aware
3		of the Cleveleys case?
4	Α.	l don't recall it. I think no, just don't
5		recall it.
6	Q.	So, in due course, we will see you got this
7		email chain?
8	Α.	Yeah.
9	Q.	So you will have been aware of it, at least by
10		February 2010
11	Α.	Okay.

21	Q.	and when we get to the top of the chain we'll

1		integrity as this gives us the best chance of
2		winning the argument. However we need to do so
3		in a controlled manner and I suggest the
4		following way forward.
5		"1. It is not clear whether we have
6		examined the audit log for this branch over the
7		period during which the discrepancies occurred.
8		If not we should do so. It would also be useful
9 10		to understand the details of the investigation
10		including a statement from [Product and Branch Accounting] as to whether it is possible that
12		there are outstanding transaction corrections.
13		"2. Horizon is a very complex system. We
14		should ensure that the experience of the expert
15		equips him to carry out the task. Being a bit
16		of a whiz on a PC wouldn't make the guy
17		an expert I'd expect a background in the
18		technical detail of say large scale banking
19		system as the experience that would equip
20		someone to carry out this task. This is not
21		just in our interest it is also in the interest
22		of the subpostmistress.
23		"3. We should control the process. Firstly
23 24		•

1		should have first immersed themselves in what we
2		discover from 1 so that they can prepare their
3		explanation in the light of what we know.
4		Secondly we should set out how Horizon maintains
5		integrity and illustrate how this is ensured and
6		explain how the audit log demonstrates this
7		integrity. Then and only then should we hand
8		over the audit log. Finally we should ensure
9		that the expert has an open channel to our
10		experts to follow up any queries. Finally, and
11		we possibly can't insist on this, we should try
12		to get the opportunity to comment on any report
13		that is drafted before it is finalised."
14		So, overall, Mr Smith was saying, would you
15		agree, in summary, that he was keen to ensure
16		that the expert has got to be the "right
17		expert", he has got to understand the processes
18		which protect the integrity of the Horizon
19		system and he points to the Castleton case to
20		support his approach?
21	Α.	Yes.
22	Q.	Can we go, please, to page 5. We can see, if we
23		just scroll down a little bit, it's Mandy

- 24 If we scroll up, we can see this is when
- 25 you're copied into the email. Can you see?

1		"Dave
2		"[Thanks] for the comprehensive reply.
3		"Who do you suggest we go to within the
4		business and Fujitsu to obtain the full audit
5		logs sorry that you're going to be leaving
6		us, can you suggest who we should talk to about
7		Horizon issues after you are gone
8		"I agree that once we get everything we can
9		together it should be examined by POL and
10		Fujitsu again can you suggest some useful
11		candidates who are expert but also quite robust
12		so as to be capable of rebutting anything that
13		the subpostmistress's expert can throw at us."
14		Just stopping there, would that have been
15		the prevailing attitude, on your understanding
16		at the time, that the imperative was to be
17		robust and rebut anything that suggested that
18		Horizon lacked integrity?
19	Α.	I don't recall that.
20	Q.	What was the prevailing attitude at the time:
20	ч.	one of openness to the possibility that there
22		might be Horizon flaws?
23	Α.	No, I think the feedback from the business and
24		from people like Dave Smith was that the Horizon
24		system was robust and reliable.
20		130
1	Α.	Yes.
2	Q.	So you entered the chain at this point. What
2	ч.	individuals did you have who accessed the audit
4		log at Fujitsu?
- 5	Α.	The team didn't access directly to Fujitsu; they
6	А.	made requests for records.
7	0	•
	Q.	What part of the Security team that you led did
8		that?
9	Α.	That would be the Fraud strand, which then moved
10	~	into the Security Operations strand.
11	Q.	Were there any written instructions that you
12		were aware of that told them how to do it and
13		what to request?
14	Α.	In the early years, I can't recall but, clearly,
15		I've seen in the bundle that there was
16		a procedure written up later on. I think 2013.

- 17 **Q.** In late 2013?
- 18 A. Sorry in the late tenure or in the late part ofmy tenure in 2013.
- 20 Q. Was that written up almost at the same time that21 the Post Office stopped prosecuting?
- 22 A. Well, that would be about the same time, yes.
- 23 $\,$ Q. So what about such a protocol for the period of
- 24 time that the Post Office was prosecuting, were
- 25 you aware of anything?

1	Α.	No.
2	Q.	Was there a menu of material that the people who
3		had the function of obtaining the material from
4		Fujitsu could look at to determine what they
5		should seek?
6	Α.	I have no knowledge of that sort of level of
7	~	operation at all.
8	Q.	Or what was available?
9 10	Α.	I have no knowledge. I just didn't know that type of information at the operational level.
10	Q.	Mr Smith continues:
12	α.	"Within Fujitsu I believe Gareth Jenkins is
13		the individual best to interpret the audit log
14		but also explain how Horizon is set up to
15		maintain integrity both in normal running and
16		when failures occur. Rod would have to field
17		someone to explain the back office controls we
18		have. I will contact Fujitsu to make sure that
19		Gareth or a suitably qualified alternative is in
20		place.
21		I would suggest that one of the big
22		accounting firms would be the best bet for
23		an expert report. They have system experts.
24		This is likely to be quite expensive as Horizon
25		underwent very frequent change."

1		email chain that we've just looked at. Would
2		you agree that this is a discussion at quite
3		a high level within or quite a senior level
4		within the Post Office, head of P&BA and Head of
5		Security?
6	Α.	Yes, we're obviously heads of our own
7		departments.
8	Q.	At this time, what would your understanding of
9		Mandy Talbot's role be in relation to the
10		Horizon challenges?
11	Α.	l don't recall. I don't particularly recall
12		Mandy Talbot, to be honest.
13	Q.	In any event, Mr Ismay says to the pair of you:
14		"Further to your emails with Dave"
15		I think that might be a cross-reference to
16		the Dave Posnett emails that we've just seen,
17		which is why I showed them to you:
18		"I think we do need to get some independent
19		heavyweight assurance to rebut the challenges.
20		"Dave's outline made sense.
21		"He suggested one of the big accounting
22		firms. I actually received a 'cold call'
23		proposal from Deloittes recently for exactly
24		that work after they read the articles about
25		Horizon in Accountancy Age Magazine."
		137
1		"I think we need to understand what
2		cases are under way in this area."
3		Then scrolling down:
4		"I found out that Carol Cross in my team and
5		Jon Longman from yours are in court soon for
6		West Byfleet (or West Byfield). This is
7		an office who as part of their defence is
8		challenging the integrity of Horizon. I didn't
9		know if you were involved Mandy? I think we
10		need to be clear about all live cases so we can
11		ensure the same consistent robust response
12		throughout and based on the sensible principles
13		of Dave's emails about pinning down the exact
14		transaction logs and talking about facts not
15		speculation."
16		So would you agree that this email is
17		starting up a conversation about two things: the
18		benefit of an independent review and how to take
19		that forwards, and, separately, the
20		recommendations made by Mr Smith, Dave Smith,
21		for an approach to investigations to support the
22	_	Post Office's position in challenges to Horizon.
23	Α.	Yes.
24	Q.	The message from Mr Ismay here is suggesting
25		that he push forward the conversation about
		139

0		about the nonzon system in a publication that
7		you maybe don't subscribe to, what would you do?
8		Would you think "I'd better find out what that
9		is"?
10	A.	I can't recall, if it's an accountancy magazine,
11		I probably wouldn't have access. You may speak
12		to Rod who does access but I just can't recall.
	~	,
13	Q.	In any event, he says:
14		"Deloittes are engaged with Group Audit
15		already in a set price framework agreement.
16		I think we should consider them. I shall speak
17		to them in a 'no commitments' sense. Given the
18		existing framework deal I don't know if we could
19		just use them (if they fitted the bill) or
20		whether we have another preferred supplier or
21		whether weird need more of a 'tender'. The
22		other obvious candidates are our auditors [Ernst
23		& Young] plus KPMG and PwC.
24		"I think it would be worth us having a 3 way
25		call. Looks like you are in workshops 138
1		an independent audit or review with Deloittes in
2		the first instance?
3	Α.	Yes.
4	Q.	Occupying the senior position that you did, was
5		that a decision that Mr Ismay could take himself
6		or would it need to go off to the board or some
7		other decision-making body for approval?
8	A.	I suspect it would have to go off to somewhere
9		else.
10	Q.	The someone else being what or who?
		_
11	Α.	I'd expect it to be the Executive Committee at
12	_	that level, or higher, the board.
13	Q.	So the Executive Committee or the board. What
14		was your role in this? Did you need to agree to
15		or authorise his proposal to go off and get
16		an expert report on Horizon from an external
17		body?
18	Α.	No.
19	Q.	Could you have shut it down? Could you have
20		said, "Hold on, stop"?
21	Α.	No.
22	Q.	We see in the email, in the last paragraph,
23	,	Mr Ismay saying that "We need to understand what
24		cases are under way in this area". At this
25		time, by February 2010, was there no tracking 140

7	Α.	To my knowledge, yes.	7

10	Α.	No, I can't recall.	10
11	Q.	Can you recall whether the three-way call that	11
12		he suggests happened?	12
13	Α.	No, I can't recall that.	13

16	Q.	Can you recall what happened next?	16

7		Remembering that the subject of the email

11		reasons given by the accused.
12		"This should be sent to lain within the next

15		Again, does it follow that, by this time,
16		February 2010, there was no central repository
17		of issues that subpostmasters had raised with
18		the integrity of Horizon data?
19	Α.	Not that I can recall.
20	Q.	If we go back to the third page, please. We see
21		the reply:
22		"Andrew,
23		"Thanks for this
24		"When completed can you also [forward]

13		Further up the page a little bit further

16		"As was discussed on the conference call and
17		taking into account Rob's comments, to confirm
18		what we're looking at is a 'general' due
19		diligence exercise on the integrity of Horizon,
20		to confirm our belief in the robustness of the
21		system and thus rebut any challenges."
22		Can you recall discussion at this time about
23		the need to seek a general due diligence
24		exercise, the purpose of which was to confirm
25		the Post Office's belief in the robustness of
		144

1		the Horizon system?					
2	Α.	No, I don't recall.					
3	Q.	Wouldn't you think the better question would be,					
4		"We're looking for a due diligence exercise on					
5		the integrity of Horizon to see whether it is					
6		robust or not"					
7	Α.	Yes.					
8	Q.	rather than, "to confirm our pre-existing

10	Α.	Yes.					
11	Q.	"The information Security team have looked at

I don't recall it as that being at the time but, clearly, with hindsight, it shows a different picture. Why does it take hindsight? I'm asking you about contemporaneous material that all seems to point in one direction: a group of people looking to stand the system up, not a group of people with open minds looking genuinely to enquire whether their system works or not. It doesn't take hindsight. This is just a reflection of the values of the day, isn't it, Mr Scott?

2		Can you help us how Mr King came to the view				
3		that an independent expert report into the				
4		integrity of the Horizon system would be in no				
5		way questioning or investigating the financial				
6		integrity of Horizon?				
7	Α.	No, I can't comment on what Dave King was				
8		thinking.				
9	Q.	Isn't this redolent of a mindset within the Post				
10		Office at this time that "We're not actually				
11		looking to find out whether there is something				
12		wrong with the system, we only want to hear that				
13		there's nothing wrong with the system"?				
14	Α.	That's not how I recall it, no.				
15	Q.	But why don't we see in a single email it put in				
16		that rather neutral and open way? Why are all				
17		of the emails written "We want a report that				
18		will confirm our existing beliefs that it's				
19		robust, we're not going to question or				
20		investigate the integrity of Horizon"? Why are				
21		they all written the wrong way round?				
22	Α.	I can't explain that.				
23	Q.	Well, is it because is this the simple truth:				
24		that they accurately reflect the mindset of the				
25		day?

1		Legacy Horizon, the old Horizon before it became				
2		Horizon Online?				

- 3 A. I wasn't aware of any bugs, issues or defects4 that impacted investigations.
- 5 Q. Would you agree that, if there were bugs, errors6 and defects in Horizon, in particular if they
- 7 affected the integrity and reliability of the
- 8 financial data produced by Horizon, you should9 have been aware of them?
- 10 **A.** Yes.
- 11 Q. Were you actually keen to find such information12 or did you close your eyes to it?
- 13 A. No, I would always be open to understand whether
- there's any issues with it and whether anythingneeded to be examined.
- 16 Q. By this time, it seems, from the email exchange,
- 17 there would be a sufficient number of Horizon
- 18 disputed cases to be able to compile statistics
- 19 of them. So a number of them, yes?
- 20 A. (The witness nodded)
- 21 **Q.** If that were the case, why had no effort been
- 22 made previously to compile a clear picture of
- 23 how often and why the system was challenged by
- 24 accused subpostmasters?
- 25 A. I can't explain why it wasn't. 148

- 18 **Q.** Further up the page, please. We see here the
- end of an email signed off by Dave Posnett, yes?Then if we can go to the foot of page 1,
 - please, to miss out the blank page. We can see
 - at the foot of the page Dave Posnett, I think same distribution list, but I think Rob Wilson
- 23 same distribution list, but24 has been added now:
- 24 has been added how 25 "All,

1	persistent challenges that have been made in
2	court have always failed. These challenges are
3	not new and have been with us since the
4	inception of Horizon as it has always been the
5	only way that Defendants are left to challenge
6	our evidence when they have stolen money or
7	where they need to show that our figures are not
8	correct.
9	"What is being suggested is an internal
10	investigation is conducted. Such
11	an investigation will be disclosable as
12	undermining evidence on the defence in the cases
13	proceeding through the criminal courts.
14	Inevitably the defence will argue that if we are
15	carrying out an investigation we clearly do not
16	have confidence in Horizon and therefore to
17	continue to prosecute will be an abuse of the
18	criminal process. Alternatively we could be
19	asked to stay the proceedings pending the
20	outcome of the investigation, if this were to be
21	adopted the resultant adverse publicity could
22	lead to massive difficulties for POL as it would
23	be seen by the press and media to vindicate the
24	current challenges. The potential impact
25	however is much wider for the Post Office in 156
	100

1		that every office in the country will be seen to
2		be operating a compromised system with untold
3		damage to the Business. Our only real
4		alternative to avoid the adverse publicity will
5		be to offer no evidence on each of our criminal
6		cases. This should mitigate some adverse
7		publicity but is not a total guarantee.
8		"To continue prosecuting alleged offenders
9		knowing that there is an ongoing investigation
10		to determine the veracity of Horizon could also
11		be detrimental to the reputation of my team. If
12		we were to secure convictions in the knowledge
13		that there was an investigation, where the
14		investigation established a difficulty with the
15		system we would be open to criticism and appeal
16		to the Court of Appeal. The Court of Appeal
17		will inevitable be highly critical of any
18		prosecutor's decision to proceed against
19		Defendants in the knowledge there could be
20		an issue with the evidence.
21		"What we really need to do is impress on
22		Fujitsu the importance of fully cooperating in
23		the provision of technical expertise and witness
24		statements to support the criminal and civil
25		litigation now and in the future.

1		an external body for external gravitas.
2		You must have wanted to know what happened
3		to those two proposals?
4	Α.	l can't recall.
5	Q.	Did you not say, "Hold on, one moment, we were
6		going to investigate the entire basis on which
7		we prosecuted a whole cohort of people, some of
8		whom have gone to prison, and the next minute
9		we're not. What's happened between A and B?"
10	Α.	l'm sorry, l just can't recall what was
11		happening.
12	Q.	You were also responsible for Mr Posnett and
13		Mr Hayward and Mr King, addressees to this
14		email?
15	Α.	Yes.
16	Q.	Did none of them come back to you and say,
17		"Boss, the whole thing has had the brakes put on
18		it because this lawyer has got involved and the
19		lawyer, who is staggered that he wasn't included
20		in an earlier meeting, is now saying 'We can't
21		do this because it might generate adverse
22		publicity to the organisation"?
23	Α.	Sorry, I can't recall them coming to me to say
	л.	
24 25	Q.	that. Would you agree that, objectively, if there was

01111	mqu	
1		"Given the nature of the discussions that
2		took place on [26 February] I am staggered I was
3		not invited to take part in the conference."
4		Do you read this as Mr Wilson saying, "If
5		there is a basis to investigate problems, we'd
6		better get on and do it", or is he saying, "If
7		we get on and investigate, we'll be in serious
8		trouble if we do"?
9	Α.	It does come across like that, yes.
10	Q.	The latter?
11	Α.	Yes.
12	Q.	So he wasn't saying there's an imperative to
13		investigate; he's saying, "We simply can't
14		question Horizon because it's got all of these
15		adverse consequences".
16	Α.	I think it's for Rob Wilson to give his
17	_	interpretation of what he was trying to say.
18	Q.	But, Mr Scott, you had been the subject of
19		a number of discussions and email exchanges
20		about the need to conduct an independent
21		investigation
22	A.	Mm-hm.
23	Q.	either by getting in external consultants or
24 25		by the Post Office itself conducting an internal
25		investigation and sending the conclusions to 158
1		any concern about the integrity of Horizon, the
2		right thing to do was to conduct a full inquiry
3		as an imperative?
4	Α.	Yes, if there was doubt over its integrity, yes.
5	Q.	Had that been the plan of the senior team
6		members involved in the earlier telephone
7		conference until Mr Wilson's input?
8	Α.	That appears to be the case.
9	Q.	Was the effect of Mr Wilson's input to shut down
10		any internal or external substantive examination
11		of the integrity of Horizon?
12	Α.	I can't recall this email because, obviously,
13		I didn't see it so I don't know what the he
14		was actually trying to achieve, whether he was
15		actually trying to achieve that or not.
16	Q.	But, Mr Scott, we've seen that you were involved
17		in a number of discussions
18	Α.	Yes.
19	Q.	up until now that were on, if not train
20		tracks, heading in a direction, and, as you've
21		agreed, neither of the things ever happened.
22		Were you not curious at the time why the two
23		alternative plans were not seen through to
24		completion?

- 24 completion?
- 25 A. No, sorry, I can't recall.

	-	
1	Q.	Was there a concern, as expressed in this email

- 2 here, an overriding concern in the Post Office,
- 3 to avoid adverse publicity for the business?
- 4 A. I think all businesses want to avoid adverse
- 5 publicity.
- 6 Q. Did anyone mention what might be in the other 7 hand, "Adverse publicity, on the one hand, and,
- 8
- on the other, we've prosecuted hundreds of
- 9 people, many of them have gone to prison. We 10 might have done so on the basis of data that
- lacked integrity, let's weigh them up"? 11
- 12 I don't recall such conversations. Α.
- 13 Q. Was there ever an 'other hand', a "Hold on,
- 14 there might just be a problem with the integrity
- 15 of Horizon here. People may have been convicted
- 16 on the basis of unsound data. We need to do
- 17 something about it"?
- 18 A. I can't recall. I'd expect the lawyers to have 19 shouted.
- 20 Q. The recipients of this email at least would have
- 21 been aware, because the email says so, that the
- 22 challenges to Horizon are not new and have been
- 23 with us since the inception of Horizon. Did you
- 24 know that: that the challenges to Horizon had
- 25 been there from the start, right back to 2000? 161

- 1 concerns from the outset, from the national
- 2 rollout in 1999 to 2000, that the EPOS system,
- 3 the Electronic Point of Sale system at the start
- 4 of Horizon, might require a rewrite or a design,
- 5 might that have impacted upon your confidence?
- 6 A. If I'd known that, then yes.
- 7 Q. If you'd been aware of a series of bugs, errors
- 8 or defects being identified in Horizon,
- 9 including some which could impact upon
- 10 discrepancies and balancing, would that have
- impacted upon your confidence in Horizon? 11
- 12 A. If I'd known, yes.
- 13 Q. Can we turn forwards, please, to POL00120479.
- 14 Now, if we look at the foot of the page first,
- 15 we can see Mr Ismay distributing a document
- 16 called "Horizon Challenges -- draft report", and
- 17 vou're not included on that?
- 18 A. Yes.
- Q. If we go up, please, and a bit more, we can see 19 20 Mr Ismay sending it to a wider collection of
- 21 people, including Mandy Talbot, Rob Wilson and
- 22 Sue Lowther. Was anyone in that list within
- 23 your Department?
- 24 Α. Yes.
- 25 Q. Other than Sue Lowther?

163

- I don't recall that. Δ
- 2 Q. When you became Head of Security, did anyone
- brief you to say, "Look, Boss, we prosecute 3
- people on the basis of data that's produced by 4
- this system called Horizon. For the past seven 5
- 6 years there have been a myriad of complaints
- 7 about the reliability of the data it produces"?
- A. I don't recall that. 8
- 9 MR BEER: Sir, I wonder if that's an appropriate
- 10 moment to take the afternoon break.
- SIR WYN WILLIAMS: Yes, by all means. 11
- MR BEER: So 3.15, please. 12
- SIR WYN WILLIAMS: Very well. 13
- MR BEER: Thank you very much. 14
- 15 (2.58 pm)

- (A short break)
- 17 (3.15 pm)
- MR BEER: Good afternoon, sir. Can you see and hear 18 19 me?
- 20 SIR WYN WILLIAMS: Yes, I can thank you.
- 21 MR BEER: Mr Scott, we've seen a series of emails in
- 22 which various members of the Post Office
- 23 expressed their confidence in the integrity of
- 24 Horizon and the data produced by it. If you had
- been aware, by 2010, that Fujitsu had got 25 162
- 1 Α. Yes. Q. Who else? 2 3 Α. Dave Pardoe. Yes, of course. Thank you. Anyone else? 4 Q. 5 Α. No. 6 Q. He, Mr Ismay, says: 7 "Dear all -- Latest version incorporating, 8 as best I can manage, all the input you have 9 made." 10 Did you know, in mid-2010, that members of 11 your Department were providing input into 12 a report written by Rod Ismay about Horizon 13 challenges? 14 Α. Sorry, I can't recall whether I did. 15 Q. He says: 16 "Thanks for your time and comments in the 17 last couple of days. 18 "This is a complex area and I would value 19 any further comments you have, but realistically 20 [they] have to be by lunch tomorrow [et cetera]. 21 "Regardless of how this document is 22 finalised, there are number of improvement 23 points which we will need to work on together 24 ..." 25 Then this: 164

1		"The priority should probably be to provide
2		any input considered appropriate for closing
3		down the issues that cause Channel 4 to consider
4		this a news item. Also to ensure we're prepared
5		for the next court cases."
6		Now, you're not included on this email but
7		want to ask you about that last paragraph and
8		the sentiments included in it. Did that reflect
9		the prevailing mood in the senior levels of the
10		Post Office at the time, that the priority was
11		to close down any issues that the media
12		considered to be newsworthy?
13	Α.	On the basis that everyone was being told that
14		the system was robust and reliable, I guess that
15	~	was one of the areas that they were looking at.
16 17	Q.	What investigation had taken place to establish
17	Α.	whether or not the system was reliable? I don't know.
10	A. Q.	
20	Q.	How were people allowed to convince themselves
20		that the system was reliable, if an investigation hadn't taken place?
21	Α.	Sorry, I don't know.
23	Q.	But, again, did this, what we see written here,
24	હ.	to a wide range of people including members of
25		your Department, reflect the culture and values

- 13 Q. Mr Ismay gives us a reason for not seeking

- A. I guess there's an element to that but I'd say
 that a report wouldn't last -- it has more than
- 22 just the date of the creation, I'd say.
- 23 Q. Well, in this case, at 2010, it had the ability
- 24 to look 10 years backwards, hadn't it?
- 25 A. (The witness nodded)
 - 169

1		would have difficulty in standing in court and
2		speaking to their report?
3	Α.	No.
4	Q.	Over the page, please.

- 5 "It is also important [says Mr Ismay] to be 6 crystal clear about any review if one were 7 commissioned -- any investigation would need to 8 be disclosed in court. Although we would be 9 doing the review to comfortable others, any 10 perception that [the Post Office] doubts its own 11 systems would mean that all criminal 12 prosecutions would have to be stayed. It would 13 also beg a question for the Court of Appeal over 14 past prosecutions and imprisonments." 15 When you received this report, did you 16 understand that a reason for not getting outside experts in is that a product of their work may 17 18 have to be disclosed in court proceedings?
- A. I don't actually recall this document from back
 then and I think I saw Rob Wilson's name on it,
 so I think that would have been covered off by
 Rob Wilson.
- 23 Q. What do you think of it now, as a reason not to24 get an independent report, that it might uncover
- 25 things that you have to disclose in court, as

- 1 **Q.** Wouldn't that be a value in itself?
- 2 Α. Yes 3 Q. So how do you understand the expression of 4 a reason for not getting an independent review, that the report would only have merit at the 5 6 date of its creation? 7 A. I can't say I could agree with that. 8 Q. But is it a bit worse than that: it's palpably 9 weak as a reason? 10 A. No, I think it doesn't -- doing a review over 11 10 years, that is worthwhile because then you flush everything out. 12 13 Q. He says: 14 "Ernst & Young and Deloittes are both aware 15 of the issue from the media and we have discussed the pros and cons of reports with 16 17 them. Both would propose significant caveats 18 and would have limits on their ability to stand 19 in court ... we have not pursued this further." 20 Do you know what the caveats that Ernst & 21 Young and Deloittes said that they would have to 22 make 23 A. No, sorry, I don't even recall being in any of those conversations. 24 25 Q. Do you know why external auditors or experts 170 1 a reason for not going and getting
- 2 an independent expert report?
- 3 A. It's not.
- 4 Q. I'm sorry?
- 5 A. It's not.
- 6 Q. It's not a good reason, is it?
- 7 **A.** No.
- 8 Q. So when you get this report, presumably you read9 it?
- 10 A. Almost certainly, I would have thought so.
- 11 Q. Wouldn't these things strike you "Hold on, the12 reasoning here is paper thin for not getting
- 13 an expert report. Why aren't we doing this"?
- 14 A. I can't recall, although knowing that Rob
 15 Wilson's on the circulation as Head of Criminal
 16 Law, I'd have expected him to have responded.
- 17 **Q.** Well, indeed, that appears to be a reflection or
- 18 a summary of the Rob Wilson advice, doesn't it?
- 19 A. Yes, which I didn't see. I wasn't on that20 email.
- 21 Q. The warning shot, "Be careful what you wish for,
- 22 if you go and get an expert report, you might
- 23 have to disclose it in criminal proceedings".
- 24 That's essentially what's being said here.
- 25 Again, is the absence of any kickback or 172

1		reaction to this by you or, indeed, others
2		symptomatic of the fact that you like what this
3		report said, "We don't need to go and get
4		independent expert evidence, we've got our guy,
5		Rod Ismay, to say that everything is fine, let
6		the caravan move on?" Was that the prevailing
7		attitude at the time?
8	Α.	Sorry, no, I just don't recall it as that.
9	Q.	Can we go back to page 1, please. Halfway down,
10		please, he says:
11		"This paper has been compiled as
12		an objective, internal review"
13		Did you know what Mr Ismay's terms of
14		reference were?
15	Α.	l don't recall and, probably, I wouldn't have
16		known if I've just received that and not been
17		involved in the draft.
18	Q.	He has told the Chairman on his oath that his
19		terms of reference were only to look for and to
20		include evidence that supported the integrity of
21		Horizon, to not be objective and not included
22		any material that undermined the integrity of
23		Horizon. Did you know that?
24	Α.	No.
25	Q.	So what did you do with this report when you got
		173
1		in information gathering and data/intelligence
2		to identify and drive down losses."
3		You were keen to drive the compilation and
4		analysis of POL information across the security
5		business. Your ethos was one of loss prevention
6		rather than being reactive. That's essentially
7		what you told us first thing this morning?
8	Α.	Yes.
9	Q.	In 25, over the page, please, on page 9, in the
10		third line, you say you commissioned:
11		" Detica, a subsidiary of BAE Systems to
12		conduct an initial review of [Post Office's]
13		systems with a loss and fraud digitalisation
14		goal in mind."
15		Then over the page at 26, you say:
16		"To summarise, my role as Head of Security
17		was [multifaceted] which, amongst other things,
18		required me to manage sensitive and demanding
19		situations, travel frequently and oversee
20	_	various large and complex projects."
21	Α.	Yes.
22	Q.	In those paragraphs, you appear to suggest that
23		your knowledge of the day-to-day activities of
24		your staff was limited, would that be right?

1		it?
2	Α.	I don't recall what I did with the report, to be
3		honest.
4	Q.	Did you issue any instructions about the
5		necessity of disclosure of it in any criminal
6		proceedings?
7	Α.	l don't recall
8	Q.	Were you aware of any criminal proceedings in
9		which it was disclosed?
10	Α.	No, I don't recall that.
11	Q.	Can we turn to a new topic, please. That can
12		come down. Your role in Horizon integrity
13		cases. Can we turn up paragraphs 20 to 26 of
14		your first witness statement, please. That's
15		WITN08390100. Paragraph 20 starts on page 7.
16		Between paragraphs 20 and 26, you tell us about
17		your role as Head of Security. You tell us in
18 19		20 there are a range of serious issues that
20		required your attention. In 21 and 22 you tell us about physical
20		threats and attacks on subpostmasters and then,

I even travelled to Scotland and Northern Ireland once to see our external criminal lawyers and they gave me comfort that all was appropriate and correct. So there was a number of different channels that I was looking at. Any policies on prosecution would have been decided by RMG prior to separation, and post separation by the POL Board and the Legal Team." Can we just look at one of those, I'm not going to go through all 13. The one that you

- benefit from crime figure was £99,000 but the
- loss was only £73,000.
- 3 A. Yes.

1

- 4 Q. Was that quite common, that the benefit from5 crime figure was assessed to be greater than the
- 5 crime figure was assessed to be greater than the 6 amount that the Post Office had lost?
- 7 A. Obviously, I can see that there. So I did have
- 8 an escalation in regards to an increase. Went
- 9 and reviewed it with the FIU team, found that
- 10 they had added a calculation that was more than
- 11 a loss and, at that point, I put in
- 12 an instruction to say that you only claim what
- 13 was actually stolen and proven at court.
- 14 Q. Was the Risk and Compliance Committee your route15 as the Head of the Security team, into reporting
- 16 issues into the board, essentially?
- 17 A. Essentially, that's where I reported into.
- 18 Whether that went into the board or ExCo, I'm
- 19 not too sure which way it went.
- 20 Q. Who was your direct report, as Head of Security?21 To whom did you report directly?
- A. So, over the period, it was Ric Francis, Mike
 Young, Susan Crichton, Chris Aujard, Jane
 McLeod.
- 25 Q. So for a period it was General Counsel?190
- 1 investigation and prosecution. Can you see that 2 it says the owner of the policy is you? 3 Α. Yes. 4 Q. If we scroll down, please, it says the assurance 5 of the policy was given by you, yes? 6 Α. Well, it's not dated. 7 Q. In what respect is it not dated? 8 A. As in me actually saying it's assured and dated as and when I did it. 9
- 10 **Q.** I see, so on the right-hand column?
- 11 A. Yes, and also, I'm not too sure I'd have been
- 12 able to sign it off, because Royal Mail Group
- 13 was the group parent and it's their prosecution
- 14 policy that was the overarching one.
- 15 Q. Would you make the similar comment for it beingauthorised by you?
- 17 A. Err --
- 18 Q. The sentence underneath --
- 19 A. Yes.
- 20 Q. -- "Authorised, Head of Security -- Post Office
- 21 Limited"?
- 22 A. Yes.
- 23 Q. So, essentially, you're being verballed up on
- 24 this policy here, aren't you? It's being said
- 25 that you own it, you assured it and you 192

7

1		authorised it?
2	Α.	I can't recall it and I can't recall seeing it
3		before. So I'm not too sure what its existence
4	~	is there for.
5	Q.	If I showed you a number of other policies where
6 7		you're the owner, you gave assurance, you'd say
7 8	Α.	the same thing, would you?
8 9	А.	Some of them, I can see, have been my name put on as for the seniority of the head of, but
9 10		I wasn't into policy writing. That would be
11		someone else.
12	Q.	Was it common practice within the Post Office to
13	Ξ.	list the wrong person as being the owner of
14		a policy, the wrong person for assuring
15		a policy, and the wrong person for authorising
16		a policy?
17	Α.	No, I'm not well, I don't recall this because
18		there's no date and I'm not too sure I would
19		have signed it off because it's a Royal Mail
20		Group overarching prosecution policy. Post
21		Office couldn't have its own prosecution policy.
22	Q.	So whoever has written this has wrongly included
23		your name? There should be one or two or three
24		different names on here?
25	Α.	Well, it shouldn't have been written because the

- 3 Q. Again, was that a common thing, that people who
 4 owned policies were not listed on them, but the
 5 wrong person was?
- 6 A. Not that I recall. I mean, if this still in
 - draft, then it's not gone to live.
- 8 **Q.** You say this is still in draft.
- 9 A. It may be because there's no date.
- 10 $\,$ Q. So, in order to show that this was a policy that
- 11 was extant, you would want, in that right-hand
- 12 column, would you, two dates against "Assurance"
- 13 and "Authorised"?
- 14 A. In principle, yes.
- 15 Q. You say in principle, do you mean, actually,
- 16 yes?
- 17 A. Yes.
- 18 Q. So does it follow that we shouldn't rely on any
- 19 policy as being that of the Post Office, unless
- 20 it has got a date against all relevant boxes of
- 21 owner assurance and authorisation?
- A. It gives more evidence to say that, actually,
 it's been approved, it's been assured and it has
 therefore gone live. Without a date, it puts it
 into doubt.

1		challenging the integrity of Horizon."
2		So that raises the trial that was became
3		quite well known and you're obviously finding
4		out about it here in mid-2010, yes?
5		Did you know anything about it before then?
6	Α.	No, I don't recall and he's obviously only
7		mentioned it by the Post Office name.
8	Q.	Yes. Well, he goes on to say after asking
9		Mandy whether she's involved, he says:
10		"I think we need to be clear about all live
11		cases so that we ensure that the same consistent
12		robust response throughout and based on the
13		sensible principles of Dave's email", et cetera.
14		So, in other words, he's suggesting that the
15		three of you the three of you in this email
16		chain need to be clear about all live cases
17		from this point forward, yes?
18	Α.	That's what he's indicating.
19	Q.	So you will have you, Mr Ismay and Ms Talbot,
20		will have kept a bit of watching brief
21		thereafter on that case; is that a fair
22		assumption?
23	Α.	I don't recall. It's not necessarily the case,
24		just because someone wrote me an email and said
25		that's what they're doing.
		196

1	Q.	So are you saying that you don't remember the
2		West Byfleet trial, the Seema Misra trial?
3	Α.	I don't particularly recall it when it's
4		obviously come out over the last couple of
5		years. So it didn't trigger anything, I don't
6		recall it.
7	Q.	So when he suggests that the three of you need
8		to keep an eye on all live cases, you just
9		ignored that, did you?
10	Α.	No, we obviously must keep a look on all live
11		cases but I don't recall looking out for this
12		particular one on its own.
13	Q.	Even in the context of the fact that the
14		challenge to the integrity of Horizon was the
15		key theme in that case?
16	Α.	Sorry, I don't recall.
17	Q.	All right. Well, let's take that document down,
18		then, and look at the next one, which is the
19		only other one I'm going to show you. It's
20		FUJ00155516. If we just go down to the end of
21		this two-page chain, we can see this is an email
22		from someone called Tom Lillywhite and he's at
23		Fujitsu, yes?
24	Α.	Yes.
25	Q.	Is that a name that rings a bell or not
		197

5		report that there is no obvious evidence of
6		suspicious behaviour, they can add nothing
7		further with any certainty and they do not have
8 9		the ability to determine if there really are any
		financial implications with the messages. In
10 11		other words, any response from us would have to
		bear the health warning that there was no
12 13		guarantee as to the integrity of the data
		provided by us.
14 15		"The issue is of particular relevance in
15		light of the fact that provision of an ARQ could
16		result in a request for a Statement of Witness
17 19		to support litigation activity. As such, any
18		Statement of Witness provided would, in real
19 20		terms, have to reflect this."
20		So let's just be clear about what he's
21		saying there. He's saying that an ARQ request
22		has come through for a particular outlet, that
23		is Derby. An ARQ request is evidently one where
24 25		somebody in your team, the Security team, have
25		asked for data from the branch, yes? 199

2	Α.	No.
3	Q.	Well, if we go up, just to the top of this
4		email, we can see that he's sent you this email
5		on 14 September 2010 and he's copied in two
6		others. He says:
7		"John,
8		"The email text I promised, following our
9		telephone call"
10		So evidently the two of you have spoken just
11		prior to him sending this message, yes? Does
12		that make sense to you?
13	Α.	Yes.
14	Q.	He says this:
15		"Our RMG Account Fraud and Litigation
16		Service are currently acting on an ARQ [and he
17		gives a reference]. This request for
18		transaction records which covers March 2010, is
19		in respect to an outlet (Derby) which is already
20		migrated to HNG-X."
21		He says:

1	issue".	do	vou?

- 2 A. No, not that I can see.
- 3 **Q.** This is in September 2010. This is just after
- 4 you had received the Rod Ismay August 2010
- 5 report, which claimed that there were no Horizon
- 6 integrity issues. Do you see anything
- 7 problematic about your response, Mr Scott?
- 8 A. I can see that it was a known technical issue.
- 9 It was known. They went to the root cause to
- 10 understand it and, therefore, from my
- 11 perspective looking at that, it's an isolated
- 12 issue that was known, root caused and resolved.
- 13 Q. What led you to think it was a known, root14 caused issue?
- 15 A. From the -- well, it says it's a technical
- 16 issue --
- 17 **Q.** Yes.
- 18 A. -- from what I've seen there.
- 19 **Q.** Yes.

- 20 A. I mean, I've literally only just seen this.
- 21 I don't recall seeing this document before.
- 22 $\,$ Q. There's nothing in it that suggests that this is
- a limited issue or that it's only related to
- 24 this branch. It's a known issue and you haven't
- 25 raised it, have you, with Mr Ismay, who has just 201
- 1 evidence and answering a good many questions. 2 THE WITNESS: Can I just confirm I'm released and 3 I can speak to my lawyers? 4 SIR WYN WILLIAMS: Yes. 5 MR BEER: Yes, that's right. Thank you very much. 6 SIR WYN WILLIAMS: So we start again at 10.00, 7 Mr Beer, yes? 8 MR BEER: Yes. Rob Wilson. 9 SIR WYN WILLIAMS: All right. Thank you very much. 10 (4.14 pm) (The hearing adjourned until 10.00 am 11 12 the following day) 13 14 15 16 17 18
- 2 A. I don't recall whether I have or not. 3 Q. You haven't raised it with the Seema Misra 4 defence team who were, at that very time, conducting a defence which raised the issue of 5 6 the integrity of Horizon? 7 A. Sorry, I don't recall. 8 Q. Do you wish to take any share of responsibility 9 for the fact that your team -- you, in 10 particular -- knew about a Horizon data 11 integrity issue in the month before Seema Misra was tried and convicted? Do you wish to take 12 13 any responsibility for the failure to disclose 14 that to her team? 15 A. I can see it. I don't know whether I did 16 disclose it or not or forward it on. If 17 I should have done, my apologies, but I don't know whether I did or didn't. I just can't 18 19 recall. 20 MS PAGE: Thank you. Those are my questions. SIR WYN WILLIAMS: Thank you, Ms Page. 21 22 So is that it, Mr Beer? 23 MR BEER: Yes, it is, sir. SIR WYN WILLIAMS: Well, thank you for your witness 24 25 statement, and thank you for coming to give oral 202

written a report on the integrity of Horizon?
