Subject: Postmaster Litigation - Remote Access: extract from draft Letter to Freeths - LEGALLY PRIVILEGED - DO NOT FORWARD
Attachments: _DOC_34439974(1)_RA comments on Response to Letter of Reply_ 27 November....docx

Paula, Al

Attached is the current draft of the proposed wording regarding remote access that is to be included in a much longer, and largely procedural letter to be sent to Freeths later tomorrow. We have a further call with our QC at 5pm this evening to review this wording again with the team and Mark Davies is included on that. For reference the key statement made in the letter to Freeths in July, was as follows:

4. **“Administrator access to databases.** Database and server access and edit permission is provided, within strict controls (including logging user access), to a small, controlled number of specialist Fujitsu (not Post Office) administrators. As far as we are currently aware, privileged administrator access has not been used to alter branch transaction data. We are seeking further assurance from Fujitsu on this point.”

Freeths have picked this up and therefore the new wording is designed to address their challenges.

Please let me have any comments asap

Jane
