Hi Andy,

Latest version attached – up to section 21. I will begin chasing the relevant people first thing tomorrow morning.

I will also give you a call to discuss

Thanks

Mark

Subject: Response to Part Two

Hi Andy,

I have been working my way through SS's Part Two report and have, using the previous PO Reply, created a new document (attached). 90% of the previous reply still stands as Second Sight are still making the same points. Thus, I think it is just a case of complementing the previous Reply with additional statements to address any new points / assertions made.

I am up to section 15.

I have :

- Updated the introductory blurb
- Created a section in the Reply for each section included in their report. Some of these may not be necessary, but for completeness (in the first instance at least) I thought it would be easier to follow if each section in their report had a dedicated section in our Reply.
 - Where possible and drawing from other docs (Scheme report, Select Committee response, dossier etc) I have added and amended text where appropriate
 - Where I do not have the technical expertise / knowledge, I have left comments to indicate what additional paragraphs we need to formulate new lines for. Where indicated, I will chase the relevant people at PO and ask Angela – but could Bond Dickinson provide draft the responses to the additional paragraphs as indicated or where you deem necessary?

Does that makes sense? I will continue to work my way through but given the deadlines (Friday) I thought it better to share now. Happy to talk through.

Rather unhelpfully, I have not tracked my changes up to section 15 – so you may wish to run a comparison from the original reply and this version (sorry). I will however track and further changes and share with you at the end of each day.

Mark
