CHIEF EXECUTIVE'S OFFICE

Dear Ms Vennells,

I am writing to yourself as I am sure you are aware of the bugs and problems associated with the Post Office Horizon system.

It has been brought to my attention the Panorama program broadcast on B.B.C on Monday 17th August 2015, has exposed many problems with this computer system.

I was a postmaster of a sub Post Office from June 1990 to August 2001 at Chipperfield Road Post Office, Orpington, Kent, BR5 2AQ.

I, like the other Postmasters shown in the program, had accumulated an unexplainable cash shortage for which I was prosecuted by the Post Office for THEFT. The shortfall had been made good immediately by begging and borrowing the money from my elderly mother.

Despite this action, the Post Office STILL proceeded with the prosecution to set an example to other Postmasters by showing their muscle and using bullying tactics. - "Panorama have obtained evidence that supports this".

"The Post Office behaviour is troubling" - I am Henderson from Second Sight.

I was given a 6 months custodial sentence. Even though I have served the sentence, I am still bitter to this day as I feel this was a miscarriage of justice, as I had

definitely not taken the money.

Knowing what you know now about the Horizon system and especially as it was a new novelty in 2001, surely you would agree that there were/are problems/bugs with the system that made cash disappear.

I understand there is a team dealing with errors creating false losses and financial records were changed remotely without the Postmaster's knowledge or knowing.

I should be grateful if you would reopen my file and investigate the handling of my case and in particular re-examine the computer printout of cash accounts up to date of closing Chipperfield Road Sub Post Office.

I eagerly await your report before I consider my options in clearing my name of this black mark to my integrity and good character.

Yours Sincerely

GRO

(MR. PARNOD KAZIA)
