Hi Helen,

Some of the documents we provided to Bond Dickinson are password Protected (see list below); I have tried the usual 2 security passwords we use however these do not work as the documents are from before they can into use.

Would you have the passwords for these documents, they are the ones you collated onto sharepoint.

Thanks

Andrew

Hi Andrew,

I am assisting Mandy with disclosure queries and in this case, SharePoint document extraction.

Our data analyst has advised that the following SharePoint documents are password protected and they require a password to access them:

Name of Encrypted Documents
File Construction & Appendices A B C.DOC
Intel process (2).doc
Offender Report Preamble (Discipline Manager)(v2.2 Jan 05).doc
Offender Report Preamble (Legal Services Report).doc
Security Operations Team Asset Recoveries v2.doc
Standards of Behaviour and Complaints Oct 07.doc
Structure & Appendices of Red Label Cases.doc
Summary Process Notes.doc
Triggers and Timescales June 2011 (3).doc

The SharePoint site from which the documents were extracted from was:

**IRRELEVANT**

Please do let me know if this is not something you would deal with advise on who could.

Kind regards

Dimitri
