Subject: Second Sight data provision - Bracknell
Attachments: 150204 timeline.docx

Hi Dave,

For clarity I thought it would be useful to detail my understanding what has happened (based on the attached timeline that I have pulled together). I recognise a lot of this may be covering old ground and slightly tedious, for which I apologise.

- In Feb 2013 Second Sight made a request for email data **since** 2008 for the ten Bracknell 'Test Team' members presumably as they were set out in the note from Simon Baker on 25 Feb 2013:
 1. Howard Porter
 2. James Brett
 3. Ian Senior
 4. Andy Fisher
 5. Linda Austin
 6. Chris Young
 7. Martin Rolfe
 8. Jon Thomson
 9. Jim Fullam
 10. Andrew Hamilton
- In March 2013 Post Office raised a request, via the P6 Process, for this information
- In May 2013 Ian Henderson personally came in and collected the data (which was provided to him on a password protected hard drive) we had that came back from the above request. Data on 3 people was missing:
 1. Ian Senior
 2. Andy Fisher
 3. Andrew Hamilton
- In July 2013 we informed Ian Henderson that prior to Oct 2011, there was no email archiving system in place
- In July 2013 Ian Henderson noted that the emails he had been provided with only went back to 2011 but that he had originally been told email archives went back to 2008. He made a request **for the 2008 emails for as many members of the Test Team as possible.**

- In September 2013 Ian Henderson responded to an email from Andy Holt saying **the request was for 2008 emails for Martin Rolfe and that depending on what is found, there may be further requests for an extended time frame or emails relating to other employees**
- 17 days later Ian Henderson then requested emails **as at** 31 December 2008 for the 10 members of Bracknell Test Team as detailed in a note from Simon Baker on 3 July 2013. **Note The name Sheena Jones appears here and Linda Austin has dropped off.** I am unsure of the significance of 31 December 2008?
 1. Andy Fisher
 2. Howard Porter
 3. Jon Thomson
 4. Martin Rolfe
 5. James Brett
 - 6. Sheena Jones**
 7. Ian Senior
 8. Chris Young
 9. Jim Fullam
 10. Andrew Hamilton
- The request for data for Martin Rolfe was actioned internally but not provided to Second Sight. We have this data, which includes emails as far back as 2007.
- We have also made a request for the data for the ten names listed above (**note – not for Linda Austin**)

Though the requests for data have clearly changed a number of times, the problem we have is that:

- Ideally we would like to be able to say to SS that they have already been provided with all the emails we have. However, without comparing the contents of Hard Drive against the data provided we cannot definitively say the more recent searches are not returning data over and above that originally supplied.
- Do we know when the data will come back from the more recent request (3 Feb) for the 10 names?
- We have spoken a couple of times and I completely understand that you are doing everything you possibly can to get into the Hard drive – for which I am hugely appreciative. Are we getting closer?

Many thanks

Mark
