In the hope that it will be helpful in identifying areas in Godeseth's first statement that may require correction, I enclose a note prepared by Rebecca.

Best wishes,

Tony

So long as those paras are addressed, I'll be happy. But you should send para 3.31 to TG, for reasons which will be obvious when you read the first bullet point to para 3 of our note!

Tony

Thanks for this.

In the further comments section:

- All the paras relating to the 22 Coyne bugs will be picked up through the WBD summaries that we are preparing on each bug, so we won't be sending these to Godeseth and Parker for comments.
- The other sections will go back to Godeseth and Parker for comments.

We are putting together the further evidence requested and will go as fast as we can!

Dear Andy and Jonny,

We have read Godeseth's and Parker's comments on parts of Coyne 2, I enclose a note largely drafted by Rebecca which sets out (1) our views on the further comments we would like from Fujitsu on Coyne 2 (separately from their comments on Coyne's 22 bugs) and (2) our views on the supplemental evidence that we now think we can and should try and prepare this week.

Best wishes,

Tony
