Subject: RE: Panorama - Trouble at the Post Office

Hi Calum,

Thanks for copying me in on your email to Paul. Hopefully the BSC goes some way to explaining the NFSP point of view and the point George makes regarding a lack of calls is a valid one that Michele picked up on last night as the program was on.

I have had 1 customer commenting on it today and not a single call from a subpostmaster. This does not mean that I'm burying my head in the sand and I am fully aware that it may hinder people like myself from leaving the business and more importantly jeopardise the good name of the post office and the integrity of subpostmasters and horizon.

There will obviously be plenty of time to raise it at SRC I would suggest either as a question to the NP or under AOB.

Thanks as always for your input.

Regards
Donald

Paul,

After last nights Panorama program and the issues it highlighted concerning possible miscarriages of justice affecting Sub-Postmasters by Post Office Ltd over false accounting, I formally request that this is placed on the agenda for the upcoming Regional Meeting on the 2nd of October.

As we have the National President with us, he is perfectly placed to pass on the NFSP's present and past position in respect to any support given to members who claim to be affected in a similar manner to those featured on last nights program.

Yours,

Calum
