Post Office Horizon Advisory Board

Secretariat note: discussion of 31 May 2023

As agreed at its discussion on 21 April, on 31 May the Board had a lengthy discussion with members of the HSS Independent Panel.

Panel members described the contents of the HSS Case Assessment Principles and Case Assessment Guidance; the process for formulating and updating those documents; and the way in which they have been applied to individual cases, including application of the principle of fairness.

They also responded to questions from the Board. The Board agreed to meet again in the near future to discuss what Panel members had told them and to agree next steps. A fuller record of the 31 May discussion will be published with the report of the forthcoming meeting.
