Subject: Spot Reviews (1, 11, 12 and 13) - Confidential drafts - legally privileged
Attachments: _DOC_26684229(1)_Spot Review 1 - Response.DOCX; _DOC_26683228(1)_Spot Review 12 - Response.DOCX; _DOC_26680470(1)_Spot Review 11 - Response.DOCX; _DOC_26684116(2)_Spot Review 13 - Response.DOCX; Comparison SR1.docx

All

Please find attached the re-drafted spot reviews for your comment.

SRs 11, 12 and 13 have been amended as discussed at our meeting.

SR1 is largely as per Gareth's first draft. I've attached a comparison document showing my changes. My key amendments have been to:

- Insert an executive summary at the beginning.
- Re-draft the final section on provision of raw Horizon data
- A few changes to section 5 to reinforce our key points.

Front pages

I've added a front cover page to each SR so we can track versions and make sure that each SR is properly signed off before submission to Second Sight. I've added a list of people who need to approve each submission – happy to amend this list if you think a different people should be included.

Comment process

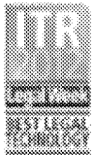

All comments on the SRs are welcomed. I suggest that any comments are fed in as follows:

- Please send any comments/mark-ups of the responses directly to me (only copying the wider group if absolutely necessary – this should help with version control, prevent flooding everyone's inboxes and most importantly make it easier to assert that every draft is legally privileged)
- I'd be grateful if any changes to the documents are marked as "track changes" just to make them easier to follow.
- Please provide your comments/amendments **by close on Thursday 25 April** (Simon – does this date work with the wider timetable?)
- I will then collate all amendments and comments into final versions and re-circulate for approval.

Kind regards
Andy
