Susan: I have today received permission from Mr Rudkin to release to POL a copy of his affidavit. Here it is. Might I suggest that we keep it on a limited circulation, not least because it contains many unproven but nonetheless potentially damaging assertions. I think it would help if Simon, Alwen and Angela were to see it. The section dealing with the Bracknell matter (paragraphs 47 - 60) has highlighted a couple of small errors in our draft Spot Review (SR005) so I have corrected it and attach the new version of it here.

I'll be happy to discuss and will separately send Simon a copy of SR005 but leave it to you to control the handling of the affidavit.

Best regards, Ron.
