Paula

This was Alice's recollection of what was agreed at the meeting last week, and I just wanted to check that this was aligned with your view and check we haven't missed anything

We would find a forensic accountant with good people skills and ask them to look at each case, talk to the subpostmaster, see the records and files, and look at how the software is validated.

At the same time JA would reconvene his group of MPs and we would offer to take them through a similar meeting to the one JA and OL came to looking at their individual cases. we would also put the proposal of a forensic accountant and the Deloittes review to them. The meeting is likely to be second half of june. Paula you would be attending, not sure about Alice.

As well as this I have agreed with Michele graves that if any new MP horizon cases come in she will bring them to me, so that we can try to close the loop.

JA's PA has contacted Alice/Glenda to start to organise this meeting. I am happy to attend to support you Paula and take some discreet notes.

Is this your recollection

Thanks Alwen
